## Army Sees \$300 Million Modernization Boost

THE Army anticipates that Congress will provide an additional \$300 million in modernization funds for the fiscal year that begins 1 July.

That's what Secretary Wilber M. Brucker reported at a farewell luncheon at Ft. Myer, Va., by a group of 175 senior NCO's.

The last session of Congress voted \$158.3 million for Army modernization above the amount sought by the Administration. Of this increase, about \$45 million has yet to be released by the Defense Department and Bureau of the Budget. "We have been fighting for modernization and little by little it is edging closer all the time," said Secretary Brucker. "Sometimes I think that January 20th will be like looking over into the promised land somewhere. It is so near."

"I would wager you today," Secretary Brucker continued, "that from the attitude of Congress and the way in which this thing is moving and the justification that the Army has made and is going to make that we'll probably get upwards of \$300 million more for Army modernization equipment in this session of Congress than last year. That's how strong this thing has gone."

## DSM For Army's First Pentomic Commander

Maj. Gen. Thomas L. Sherburne, Jr., USA-Ret., who commanded the Army's first Pentomic unit, the 101st Airborne Division at Ft. Campbell, Ky., and who recently was Deputy Seventh Army Commander in Germany, receives the DSM, First Oak Leaf Cluster, at the Presidio of San Francisco from Maj. Gen. Gilman C. Mudgett, Deputy Sixth Army Commander. General Sherburne, who resides with his wife and two children at 28 Willow Road, Menlo Park, plans to enter business in California. (Other retired notes, Page 27)

### HAIRCUT CHANGE

There is likely to be a change in haircut styles in some Army offices after 20 January.

Secretary Wilber M. Brucker happens to believe that close-cropped, field-type haircuts belong in the field.

Trim yes, but scalp height no.

### ORDERS INDEX

Army, Navy, and Air Force orders begin on Page 2. Coast Guard orders will be found on Page 27.

New lists of Army promotions are published on Page 18.

## An Editorial

### Changing Of The Guard At The Pentagon

On 20 January when Senator John F. Kennedy of Massachusetts succeeds General of the Army Dwight D. Eisenhower as President of the United States and Commander-in-Chief of the Armed Forces, there will be a simultaneous changing of the guard at the Pentagon. Capt. Thomas S. Gates, jr., USNR-Ret., will turn over his office on the third deck to Col. Robert S. McNamara. A former Secretary of the Air Force, Col. James H. Douglas, jr., will be succeeded as Deputy Secretary by a former Air Force Under Secretary, Roswell Gilpatric.

The people of the United States have good reason to hope that the transition in the other departments of our government is accomplished with the same effectiveness which has marked the preparations for the take-over by Mr. McNamara, Mr. Gilpatric and their subordinates.

From Secretary Gates, Mr. McNamara will inherit problems created by the "Gold Dollar Widow" directive. When the history of the former Secretary of the Navy's tenure as head of the Defense Department is told in full, it will show that Secretary Gates was ordered to implement the plan after having voiced strong objections. But beyond that particular difficulty, the departing Secretary leaves to the former Ford Motor Company President a great series of notable accomplishments on which to build further the strength of the Free World.

Bringing his great experience as a Naval officer in WWII and as a civilian official of the Defense Establishment into full play, Secretary Gates, with determination and dedication, has succeeded in attaining

## Bolté Report Reaction Hits; Sharp Disagreements Revealed

(THE JOURNAL, which last week used all or parts of 12 pages to carry more information about the Bolté Report than any other publication, continues in this issue—as will be the case in the weeks ahead—comprehensive coverage of the new plan which would revise officer promotion and retirement procedures in the Services. Here at a glance is the initial reaction of the Services.)

ARMY—Greatly concerned about "changing the rules" of a system which it says has worked satisfactorily to meet (1) military requirements, (2) assure equitable consideration of Regulars and Reservists, while (3) avoiding the necessity of "Hump" legislation, required by the Navy, and "White Charger" actions, which are being used by the Air Force, the Army will offer strong arguments against major provisions of the Bolté Report when it joins the other Services in submitting comments by 15 March.

Page 4

NAVY—Delighted over the prospect of being given 376 additional captains and 184 more commanders, the Navy will endorse large segments of the Report without qualification. Though it would prefer to maintain its present "flotation" system for promotion from rear admiral lower half to upper half and avoid a one-star rank, the Navy feels that the proposed increase in its number of flag officers more than offsets these losses.

Page 6

MARINES—Like the Navy, the Marine Corps is pleased with the Report, and hopefully anticipates an increase in the number of colonels and general officers.

Page 6

AIR FORCE—Slated to gain 4826 lieutenant colonels, the Air Force is gratified that the Bolté Committee recognized the need for "urgent" revision of the Officer Grade Limitation Act. The Committee has given the Air Force a go-ahead to seek single Service relief at this session of Congress. Unless the Air Force receives help from Capitol Hill, some captains selected for major (THE JOURNAL 7 January) will be forced to wait until Fiscal Year 1963 to receive their promotions.

Page 5

Other Bolté Committee reports appear on pages 8, 15, 16, and 22.

### Sec'y-Designate Zuckert Visits USAF Academy

SECRETARY of the Air Force-designate Eugene M. Zuckert, chats with Maj. Gen. William S. Stone, USAF Academy Superintendent, during a visit to Colorado Springs. Mr. Zuckert has been on a tour of Air Force installations in an unofficial capacity to become current on Air Force activities.

### "BAG" LUNCHES FOR DOCTORS

A hard blow at "career incentives" has been dealt to Medical Corps officers and Nurses at Walter Reed Army General Hospital, Washington, D. C.

A new order prescribes that officers not living in the post BOQ are not allowed to use the general mess.

Doctors and nurses, who are on duty 12 to 14 hours a day, now must either bring their lunches or take the time, and spend extra money, to go to the Officers Club for lunch. A critical few, who can not be spared for even a few minutes, will be exempted from the rule.

Hospital authorities attribute the ban to an "acute shortage" of funds. They explain that the money paid by those eating at the mess goes to the Treasury and can not be used for the purchase of food.

## 'Gold Dollar Widow' Reversal Hopes Up

THE visit by President-Elect Kennedy to the office of Secretary of the Treasury Robert B. Anderson this week raised hopes that the new administration will modify or rescind the "Gold Dollar Widow" directive.

It is known that Mr. Kennedy and Secretary Anderson conferred principally about the balance of payments situation.

THE JOURNAL revealed last week that incoming Secretary of Defense Robert S. McNamara already has discussed the family situation with Secretary of the Treasury-designate Douglas Dillon. The new secretary is known to have been impressed by the great concern expressed in this matter by both Chairmen Carl Vinson (D-Ga) and Richard Russell (D-Ga) of the House and Senate Armed Services Committees.

Beginning February the Directive will hit with full impact. During February, the Army plans to send only 500 family members overseas, while only a handful of Air Force and Navy families will be allowed to accompany their sponsors.

Service leaders are prepared to brief Secretary McNamara about the drastic

**MARINES REINSTATE OFFICER MOS**

BASIC Military Occupational Specialties, used to identify newly commissioned officers and certain other officers in training for qualification in an occupational field, will be reinstated by the Marine Corps. The basic MOS for officers has not been used since 1953.

The re-establishment of basic designations will apply to officers seeking to qualify for primary MOS's in the following fields: Infantry, Antiaircraft Artillery, Field Artillery, Engineer and Shore Party, Tank and Amphibious Tractor, Operational Communications, and Motor Transport. The first two digits of the MOS will identify the occupational field and the last two digits will be "01." Hence, the MOS 0801 will be used to designate a Basic Field Artillery Officer.

Since 1953, as part of a general program to reduce the total number of MOS's, personnel administration and planning in the Marine Corps has been conducted, on a trial basis, without a Basic MOS in any field, and a Basic School graduate has been identified by Code 9901, Basic Officer, until he became fully qualified in an occupational field.

Under the reinstated system, an officer detailed to a course of instruction or on-the-job training in one of the seven fields listed would be given a basic MOS until he became qualified for a primary MOS.

## WHEN MOST PEOPLE SAY "I THINK..." DO THEY REALLY THINK?

We all have occasion to express our opinions a dozen times a day—at work, over the lunch table, at community or church meetings, in social gatherings. And our progress in our jobs...our standing in any group depends in large part on how sound our opinions are.

A person who says "I think" about any subject—whether politics, psychology, the latest scientific developments, communism, religion or the news of the day—and then expresses attitudes which are clearly not informed thoughts, but a jumble of emotional misinformation, is rarely listened to with respect.

To think intelligently about any subject one must have knowledge. Not just current facts picked up in newspapers and magazines, but a background of knowledge against which facts can be evaluated and sound opinions formed.

No one mind can hold all the information necessary to arrive at a thoughtful opinion on all subjects, but one reference set does—the esteemed Encyclopaedia Britannica, for almost 200 years the world's most respected, comprehensive, and authoritative treasure of knowledge. For anyone who recognizes the importance of expressing opinions which plainly show that when you say "I think" you are expressing real thought—not uninformed prejudice nor unthinking conformity—the Encyclopaedia Britannica is an essential possession. It is the objective source of the knowledge a mind must have in order to think with lucidity and discernment.

*New edition*

# ENCYCLOPAEDIA BRITANNICA

*Available direct from the publisher on  
Book a Month Payment Plan*

### Special Discount to Military Personnel!

*you get all 24 volumes now—pay later!*

The latest edition of Britannica—the greatest treasure of knowledge ever published—is the greatest in our almost 200-year publishing history. An enormous printing materially reduces our costs and under an unusual direct-from-the-publisher plan, we pass these savings on to you. All 24 handsome volumes of this world-renowned reference library will be delivered to your home NOW direct from the publisher. You pay later at a cost so low it is as easy as buying a book a month!

#### Equivalent to a library of 1,000 books

The Encyclopaedia Britannica is the most valuable gift you can give yourself and your family—the priceless gift of knowledge. Contained in its pages is information on every subject significant to mankind. It is equivalent to a library of 1,000 books, bringing you the knowledge and authority of world-recognized leaders in every field.

Just think of a subject—and you'll find it in the Encyclopaedia Britannica—whether it is information on the rules of a sport, the background of a religion, how to build a brick arch in a fireplace, or the science of launching a guided missile.

The new Britannica almost "televises" infor-

mation to you, with 25,042 magnificent photographs, maps, and drawings. In every respect, Britannica is the largest and most complete reference set published in America, containing 27,357 pages and over 38,000,000 words.

#### Symbol of a good home

Encyclopaedia Britannica cannot help but have a lasting effect on you as well as on the growth and development of your children in school and in later life. Benjamin Franklin said: "An investment in knowledge pays the best interest," and Britannica gives you the accumulated knowl-

edge of the world in clear, easy-to-read language and superb illustrations. It is essential in every home where education is valued and respected.

## Free Of "Hump" Problems, And Without Need To Retire Officers On Accelerated Basis, Army Fears That Bolté Proposals Would Create Serious Problems By "Rules Changes"

**S**TUNG by the prospective loss of 249 lieutenant colonel and more than a score of general officer slots—compared with striking gain of 4826 lieutenant colonels for the Air Force—the Army will voice strong opposition to major proposals of the Bolté Report when it submits official comments to the Secretary of Defense by 15 March.

On the basis of previous positions it has taken on Capitol Hill during discussion of personnel problems, the Army will state that—alone of the Services—it has worked out a personnel program which provides for military requirements and assures equitable consideration of Regulars and Reservists without the need of emergency legislation.

Specifically, the Army has been able to avoid use of "Hump" legislation voted for the Navy, which authorizes accelerated retirements for captains and commanders, and the "White Charger" measure, which does substantially the same thing for the Air Force.

### Penalized For Balance

The Army will make the point that it will be penalized by the proposed Bolté program for having a balanced structure.

General Charles L. Bolté, USA-Ret., is a former Army Vice Chief of Staff. At a news briefing (THE JOURNAL 7 January) he made the point that all members of the Committee served as individuals and not as spokesmen for their Services.

If past presentations before Congressional committees are a basis for judgment—and they usually are—the Army will contend that "uniformity for uniformity's sake" should not be a guiding principle for changing a promotion system which is now working most satisfactorily.

Army officers now can forecast their career opportunities across two or three decades with a fair degree of assurance. The Army will feel that this may be less so under the revised program.

As regards the recommendation for a single lineal promotion list, students of Army personnel procedures will recall that whenever such an idea was advanced in the past, the point was made by Army officials that Reserve officers would be placed at a disadvantage under such a system.

Congressional testimony last year brought out the fact that the Army needs about 60 additional general officer spaces to fulfill current requirements. Instead of such an increase, the Army would be forced to drop about 25 general officer slots under the Bolté Report.

### Would Hold Grade Spread

There is no question that a fundamental disagreement of the Army will center on the plan to revise the percentage of officers in field grades across the board on a uniform basis. The Army, citing for example the major support activities it conducts for the other Services and its major responsibilities for MAAG missions, will say that the current grade spread, based on requirements alone, is satisfactory and should be retained.

If the Bolté recommendations are adopted without major changes the Army will find it impossible to maintain the present selection opportunity for temporary promotion. THE JOURNAL's analysis of selection actions during recent years shows that among those being considered for the first time the selection opportunity for temporary advancement has been about 95% to captain, 55% to major, 60% to lieutenant colonel, and 40% to colonel.

At present, less than 10% of Regular officers receive grade changes by means of permanent promotion. More than nine out of ten win a grade change by means of temporary selection.

In submitting their official comments on the Bolté Report, Army officials will document in detail their success in phasing permanent promotions with the Officer Grade Limitation Act with the result that it has been possible to

avoid emergency legislation to speed retirement of permanent colonels and lieutenant colonels and to seek increased major spaces, as have been necessary in the Air Force.

The Army has made the point on Capitol Hill that the present promotion system, fully understood by all officers, has encouraged an increasing number of Reservists to make military service a career. Army leaders will express the fear to Secretary of Defense McNamara in March that a radical change in the

system will cause a reversal of this trend.

General Bolté was asked about this problem at a news briefing (THE JOURNAL, 7 January), and said it was the opinion of his committee that the proposed plan would encourage more officers in all Services to seek career service.

The Army, on the other hand, believes that the stability which has been achieved in its program for career officers should not be overturned for uniformity's sake.

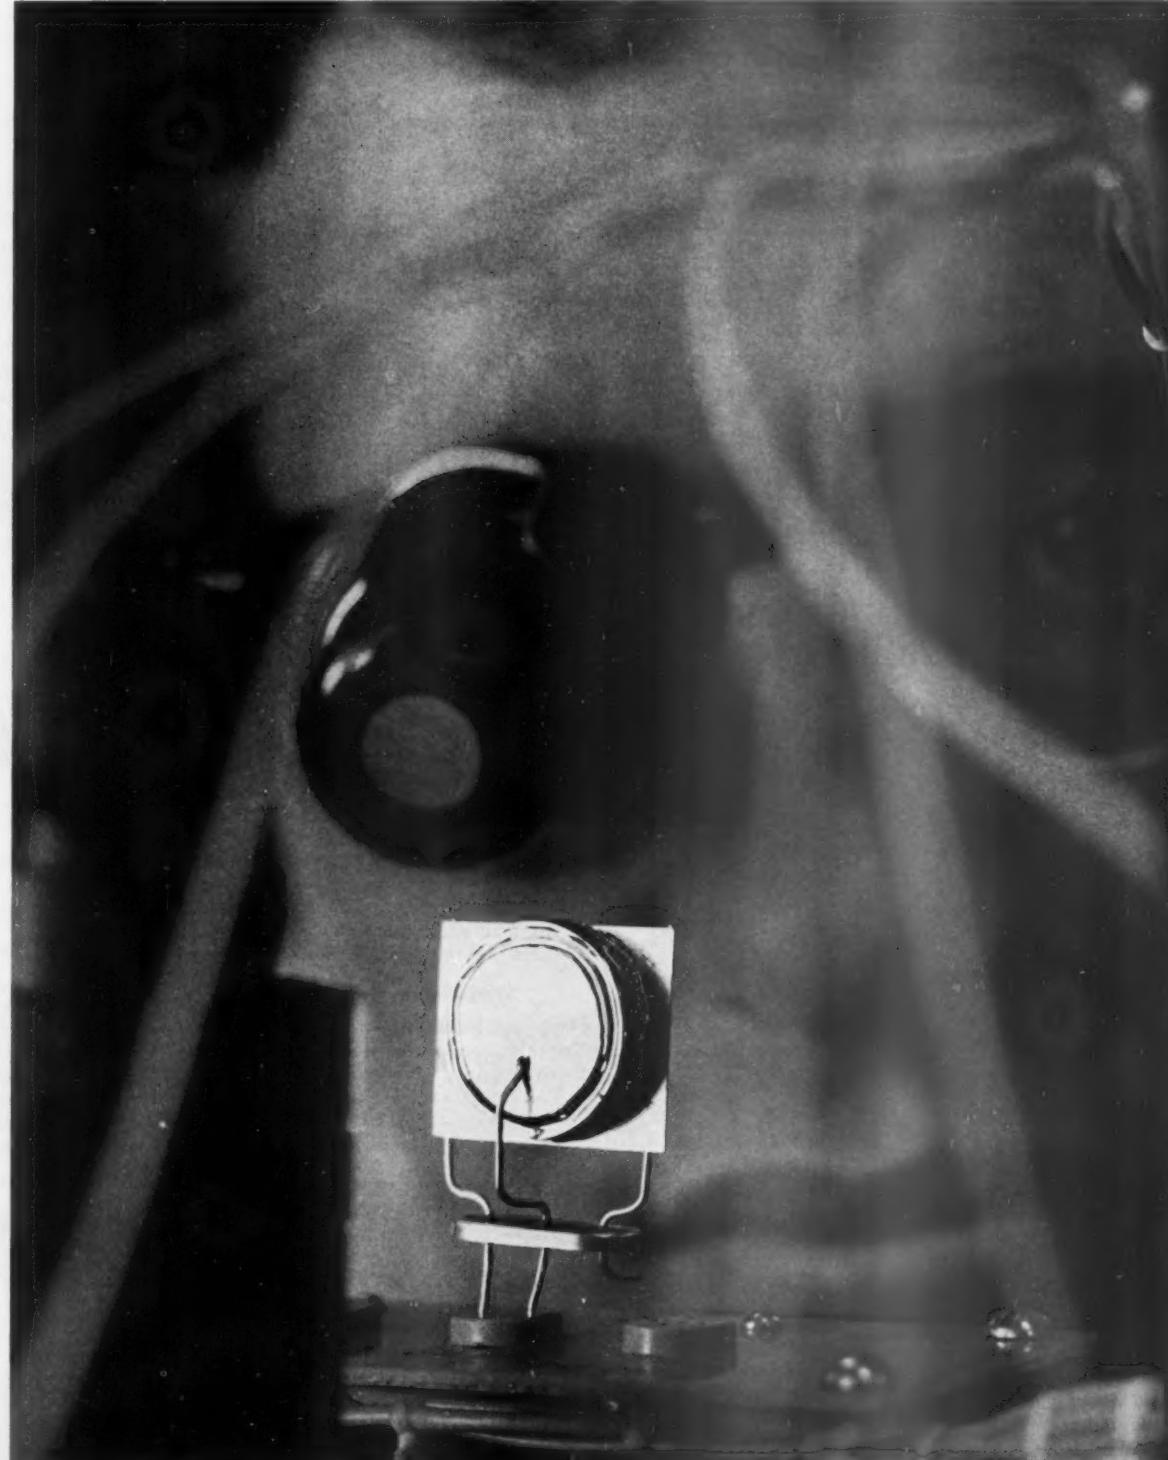

formity's sake.

The Army will also make a strong point, of course, that the proposed reduction in the strength of its lieutenant colonels and general officers will make it impossible to fill current requirements. The Army will say, as it did in testimony on Capitol Hill, that the grade structure that is authorized in the OGLES is based on firm requirements that were detailed at great length in hearings before the House and Senate Armed Services Committees.

## AF Will Give Enthusiastic Endorsement To Bolté Report; It Will Be First Service To Seek Capitol Approval For New Grade Spread; Promotion Crisis Is Alternative

THE Air Force is hopeful that within a matter of weeks it will receive a Budget Bureau green light to go to Congress with legislation to implement immediately a vital segment of the Bolté Report.

It was learned this week that the Air Force anticipates early approval by the Defense Department of a plan—supported by the Bolté Committee—seek immediate unilateral amendment of the Officer Grade Limitation Act.

This emergency action will be taken

because the Air Force faces a promotion crisis that could have a drastic effect on career retention.

In a nutshell this situation is this.

### Thousands Face Promotion Delay

Unless the Air Force is given immediate relief from the current OGLA, it will not be able to promote this fiscal year 3579 of the 6141 captains whose selections to temporary major were pub-

lished in last week's issue of THE JOURNAL.

That's not the whole story of the Air Force promotion problem.

The situation is such that failure to amend the OGLA would force the Air Force to delay until fiscal '63 the promotion of 1020 of the captains whose selections to major were released at the end of 1960.

At the major to lieutenant colonel level, the Air Force at present has only 1404 vacancies for 1543 selections, which

means a carryover of 907 to the next fiscal year unless Congressional relief is obtained.

### Emergency Law Needs Extension

Further complicating the Air Force picture is the fact that Congressional action is necessary to extend the authorization for 3000 additional majors, which was voted in 1959. This is due to expire 30 June 1961.

The Defense Department, according to authoritative word, has been convinced, as was the Bolté Committee, that the present grade distribution puts the Air Force at a sharp disadvantage with the other Services.

This conclusion prompted the Bolté Committee to recommend a grade structure which would give the Air Force 4826 additional lieutenant colonels and 1612 colonels. The proposed Air Force legislation would implement the Bolté grade structure, reported in detail in last week's issue of THE JOURNAL.

Air Force officials have made it known in past Congressional testimony that failure to revise the grade structure would peril the promotion opportunities for all Reserve officers on active duty beyond the grade of major. The OGLA authorization for 10,130 lieutenant colonels would be filled exclusively by the need to make permanent promotions to that rank for Regular officers.

### Single List Little Problem

The Air Force, which has been changing its officer promotion procedures during the past several years, will have relatively little difficulty in adjusting to the single lineal promotion list proposed by the Bolté Committee.

The Air Force plan would be to place all Regular officers on the list in accordance with the date of Promotion List Service. Initially, Reserve officers would be placed on the list according to Active Federal Commissioned Service.

Reserve officers going on extended active duty after this initial action would be placed on the list according to Total Commissioned Service, whether Active or Inactive.

### "Spot Promotions"

There will be dissatisfaction in some Air Force circles, particularly in the Strategic Air Command, because of the prospective loss of "spot promotions" under the Bolté recommendations. But it is no secret that USAF Headquarters has advised SAC during the past several years that it might be necessary to abandon the "spot promotion" system. SAC, on the other hand, has been pressing for an expansion of the "spot promotion" authority to include officers assigned to missile squadrons, as well as those serving with bomber units.

### LDO Concept Outlined

The Bolté proposal to create a Limited Duty Officer category in all the Services is likely to win Air Force support. Although it has not publicized the action, the Air Force, in effect, has been phasing out its warrant officer program

## Despite Change In Running-Mate System, Navy Is Jubilant Over Bolté Report; Marines Pleased With Recommendation For 16 New Spaces For General Officers

LESS than enthusiastic over the prospective loss of its running-mate promotion system, the Navy is otherwise delighted with the Bolté Report, and plans to support its major recommendations.

The Navy consensus is that there will be more gains than losses if the report is implemented as submitted to the Secretary of Defense.

The Navy is most jubilant over the sections of the Report which recommend a redistribution of flag and general officer authorizations among the Services. This would give the Navy a total of 328 flag officer spaces, an increase of 22 over the present statutory ceiling of 306 and 41 flag officers over the existing flag officer ceiling set by the Stennis Senate Armed Services Subcommittee.

The Navy also would gain 376 new captain spaces and 184 commanders.

A second point of satisfaction for the Navy is the recommendation of the Bolté group that permanent appointments automatically follow and be conditioned upon temporary promotions to each grade. This, the Navy points out, is the system it now uses.

The Marine Corps would win 16 new general officer spaces. These would be added to the present authorization for 60 general officers set by law and by recommendations of the Stennis Subcommittee.

The Marines in addition would gain 162 new colonels and 495 lieutenant colonels.

Marine Corps officials say they do not plan to use all the new authorizations, especially in the lieutenant colonel category. They do not expect the new authorizations to be reflected in increased promotions.

Navy and Marine officials feel that the Bolté Committee's insistence on full disclosure of all promotion board actions endorses their long-standing policy on this matter. The Navy and Marine Corps are the only Services to make immediate and full disclosure of all promotion lists as soon as they are approved by the President and to announce all pertinent details of promotion board actions, including the names of all board

members.

There was unhappiness in Navy ranks that the Bolté Committee recommended reinstatement of one-star rank for their flag officers and abolition of the "flotilla" system, whereby rear admirals automatically progressed—without promotion board action—from one-star pay to two-star pay. The effect of this recommendation was cushioned by the fact that it was not at all unexpected.

The recommendation that the Navy's running-mate system for promotion

eligibility be repealed may cause the biggest opposition in Navy circles. The Bolté Committee had recommended that this system be replaced with something less rigid and suggested the new system might be similar to that used by the Army and Air Force.

This provision may be the center of some Navy opposition to full implementation of the report, but Navy officials seemed hopeful they could work out a compromise solution.

On the whole, the Navy views the

report as an endorsement of its past actions in personnel planning. In addition to copying Navy selection and promotion practices, the Navy feels, the Committee also selected as the best systems of their type in the three Services its Holloway Plan ROTC program, LDO system, its exemption of retired flag officers serving on active duty from counting against flag strength ceilings, and its practice of making all promotions effective on the date each officer becomes eligible.

**TWO IN ONE.** New target missile NA-273 (Army Redhead/Roadrunner), designed by Columbus, can fly high or low, at subsonic through Mach 2 speeds. It is launched by solid propellant booster rocket, and ramjet powered.

**ELECTRONIC TESTING.** Air Force's GAM-77 Hound Dog is set up on 120-foot crane, undergoes stringent radar reflectivity tests at Columbus as part of research project in both airborne and ground support electronic systems.

### "Hot Rocket" Crews Set For SAC Test

Three Boeing B-52G bomber crews of the 4135th Strategic Wing at Eglin AFB, Fla., have been chosen to fly combat-type missions in Operation "Hot Rocket," first phase of SAC's 1961 Combat Competition.

Crews commanded by Lt. Col. Edwin E. McNeill, Maj. James H. Weeks and Capt. Donald F. Ryan each will complete two missions before the end of February. Scores will be compared with those made by bomber and tanker crews from other Eighth Air Force bases, and top crews will be chosen to represent the Eighth Air Force at the competition finals next fall.

Flying with Colonel McNeill are Capt. Ralph C. Dresser, pilot; Maj. Jack D. Dennis, radar-navigator; Capt. James E. Maxwell, navigator; Capt. Leslie R. Shears, electronic warfare officer, and T/Sgt. Richard E. Williams, gunner.

Members of Major Weeks' crew are Capt. John H. Baggaley, pilot; Maj. Nils P. Ahl, radar-navigator; Capt. Edward L. Russell, navigator; Maj. Earl R. Mills, electronic warfare officer, and T/Sgt. Weldon M. Cagle, gunner.

Captain Ryan's crew consists of First Lieut. Robert W. Fox, pilot; Capt. Louis H. Bernasconi, radar navigator; Capt. Gerald R. Cummings, navigator; First Lieut. Herb Doby, electronic warfare officer, and T/Sgt. Joe M. Glenn, gunner.

One umpire flies with each crew. Umpires are Captains Robert H. Terrell and Lloyd D. Whitney, both from the 4137th Strategic Wing at Warner Robins AFB, Ga.

## Journal Staff Gathers All-Service Notes On Bolté Proposals

**30-YEAR RETIREMENT**—Congressional critics often have attacked 30-year retirement from the Armed Forces because, they charge, officers leaving the Services at this point in their career often have many useful, productive years ahead of them. Meeting the criticism head-on, the Bolté group acknowledges that the argument is valid, but strongly declares that this is a "conceded cost, to be weighed against the necessity in military Services of providing a flow of younger officers into responsible positions." Any extension of the 30-year career concept, the Committee says, would create "unacceptable" results.

**"HUMP" LEGISLATION**—When the Navy's "hump" bill was before Congress, the Air Force argued that it needed special legislation of its own. The Army said it needed neither the Navy nor the AF plan. Now, the Bolté Committee says permanent legislation, like the temporary Navy "hump" act, should be enacted for all Services.

**NAVY AND MARINE CORPS WOMEN**—The number of WAVE and Women Marine officers serving in the grade of commander and lieutenant colonel would be boosted under the Bolté plan. Present grade distribution for Sea Service women officers in the grade of LtCol/Cdr (other than professional specialists) is limited to 10% of their *actual* number. This would be changed to 10% of the number authorized for the fiscal year (a practice already in use in the Army and AF).

**SELECTION BOARD SECRECY**—Officers may have difficulty reconciling two statements in the Bolté Report concerning selection boards. The Committee says confidence in the selection system depends, among other things, on "complete dissemination of information to the maximum extent possible," and asks that the laws be rewritten to require the Services to advise their members of the convening dates of boards, promotion zones, eligibility limits and the lists of officers selected. However, with respect to board membership (presently released only by the Navy and Marine Corps), the Committee says "it is acknowledged that there may be cogent reasons why the names should not be released, and this should be left, as it is now, to the administrative discretion of each Service."

**HANDS-OFF RULE**—Tampering with selection boards would be ruled out completely, except for Presidential action. The proposed new rules would bar anyone but the Chief Executive from deleting the name of an officer recommended by the board. Also, the Services would be barred from issuing directives to boards "which would directly or indirectly require them to select or continue a specific individual" as was done in the case of VAdm. H. G. Rickover.

**NAVY STARS WILL FALL**—Although Navy flag ranks will be increased, the establishment of one-star rank will mean a net loss of more than 100 stars. At present, the Navy has about 123 two-star officers who receive one-star pay. Additionally, Navy flag officers face new continuation procedures. Those now selected for continued active duty by continuation boards are required to run the gauntlet only once. Under the new procedures, two-star officers who are continued beyond the attrition point will be safe for only five years and then will be subject to further selection for continuation.

**PRESIDENT EISENHOWER**—In anticipation of expected Congressional action to restore the retired rank of President Dwight D. Eisenhower, the Bolté Committee included the President's five-star rank as a "deduction" from Army general officer totals.

**MARINE CORPS PEACETIME GENERALS**—For several sessions of Congress, the Marine Corps has been attempting to win approval for a law which would wipe out the peacetime limitations on its lieutenant generals. Although the Corps now has five three-star officers (under current national emergency powers), it is authorized only two in peacetime and would have to reduce three of the officers if the emergency was abruptly terminated. Under the Bolté Report, all Services would be permitted to have 15% of their general officers serving in three-star and four-star grades, and 1/4th of this number could be four-star officers. Peacetime ceilings would be repealed.

**3-STAR, 4-STAR PAY LOSS**—Another bill which the Pentagon has unsuccessfully attempted to get Congress to approve would enable three and four-star officers to continue receiving benefits of those ranks during transitory periods. They now lose their grade, rank, pay and allowances during between-assignment periods, while hospitalized or while awaiting retirement. The Bolté Committee says it feels the situation "is unwarranted" and recommends legislative remedy "to provide for continuation of the mentioned entitlements during the periods in question."

**SERVICE BAND LEADERS**—Numerous disparities in the appointment and retirement rules for the Army, Navy and Marine Corps bands, as well as the Military and Naval Academy bands, as outlined in JOURNAL articles, have "no logical reason" the Committee said. New laws recommended by the Bolté group would provide that leaders of the bands could serve in grades up to and including LtCol/Cdr for leaders and Capt/Lt for assistant leaders, with retirement in the highest grade in which they have served satisfactorily on active duty.

## 91 Army, Navy, AF And Marine Officers On First Nomination List Of New Congress

PRESIDENT Eisenhower has sent his first nominations to the new 87th Congress, including 91 Army, Navy, Air Force and Marine Corps officers for promotion or retirement.

Lieutenant Generals Robert F. Sink, USA, and Joseph H. Atkinson, USAF, were named for three-star rank on the retired list, as was VAdm. Lorenzo S. Sabin, Jr.

Four Navy flag officers were named for promotion to three stars. They include Vice Admirals Edward N. Parker, William F. Raborn, Jr., and John McN. Taylor, all of whom had received recess appointments, and RAdm. Claude V. Ricketts.

Four Army officers also were named for three-star rank: Major Generals Andrew P. O'Meara, Paul W. Caraway, Barksdale Hamlett and Verdi B. Barnes.

Col. Charles R. Roderick, USAF, was named for appointment to the temporary grade of brigadier general. He holds a recess appointment as Special Assistant to the Secretary of Defense for Legislative Affairs.

Seven Air National Guard officers were named for appointment to major general and brigadier general. Those promoted to major general are Brigadier Generals Joe C. Moffitt, Colorado, and Charles H. DuBois, Jr., Missouri. Those promoted to brigadier general are Colonels Leslie C. Smith, California; Emmanuel Schifani, New Mexico; Edward G. Johnson, Oklahoma; Enoch B. Stephenson, Jr., Tennessee; and Frank W. Frost, Washington.

Lt. Col. Alfred F. Ahner, AGC, of the Army National Guard, was nominated for the reserve rank of brigadier general.

Maj. Gen. John S. Bragdon, USA-Ret., was named for a six-year term as a Member of the Civil Aeronautics Board.

Brig. Gen. William R. Shuler, USA, was nominated to membership on the Mississippi River Commission.

Nine Marine Corps officers were nominated for permanent appointment as major general or brigadier general. Those named to permanent two-star rank are August Larson, Richard C. Mangrum, Frederick L. Wieseman and Victor H. Krulak. Those named for permanent brigadier general are Henry W. Buse, Jr., Herman Nickerson, Jr., William J. Van Ryzin, Raymond L. Murray and Walter A. Churchill. General Churchill is a Reservist.

RAdm. Edward C. Kenney, MC, USN, was named for a four-year term as Chief of the Bureau of Medicine and Surgery in the Navy.

RAdm. Leonidas D. Coates, Jr., USN, was named for a three-year term as Chief of Naval Research.

The following officers of the Navy were named for permanent promotion to the grade of rear admiral:

## "MIDAS" REPORTS

through communications

equipment by Philco

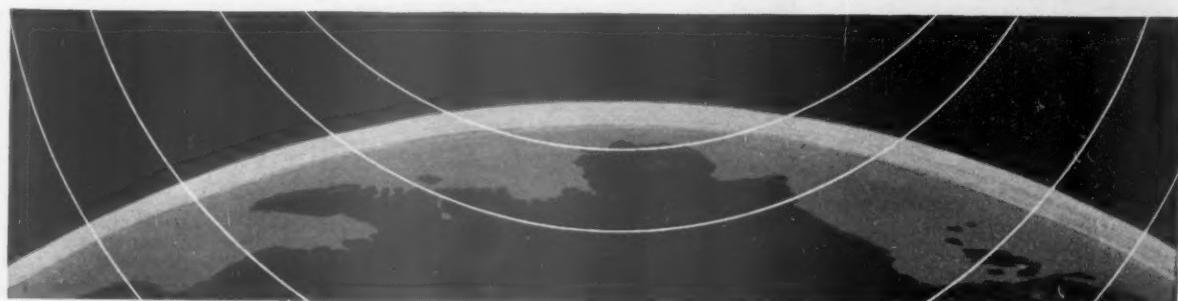

MIDAS II, the experimental "sentry in space," is the forerunner of a series of satellites that will detect the launching of ballistic missiles anywhere on earth and instantly relay the warning. Its entire communications system was designed and produced by Philco's Western Development Laboratories for the U.S. Air Force, as associate contractor with Lockheed.

This is another example of Philco's leadership in advanced electronics that is contributing to our national defense . . . in satellites, missiles, weapons systems, communications and data processing. For vast capacity, facilities and experience, look to the leader . . . look to Philco.

Government and Industrial Group, Philadelphia 44, Pennsylvania

# Here is what your fellow Officers say about The ARMY NAVY AIR FORCE JOURNAL

"The JOURNAL's accurate reporting and objective editorials, combined with its emphasis upon the members of the Armed Forces as individuals, have comprised an important contribution to the breadth of effectiveness, information, and morale of the members of the military establishment."

General L. L. Lemnitzer  
Chairman, Joint Chiefs of Staff

"The JOURNAL, by reason of objective and comprehensive reporting, has attained a stature in its field difficult to equal. Airmen everywhere join me in sending best wishes for your continued success."

General Thomas D. White  
Chief of Staff  
United States Air Force

"The JOURNAL . . . can look back on almost a century of service to military readers . . . Your publication has become a permanent fixture in most service homes. It is highly respected for its accuracy and wide coverage of the events . . . of primary interest to the serviceman and his family."

Admiral Arleigh Burke,  
Chief of Naval Operations

## Have a seat in the highest-performance primary trainer in Air Force history: Cessna T-37

Settle back where nearly 3000 student pilots already have come to grips with the thought of learning to fly in a high-performance jet. For many, the twin-jet T-37 was the first plane they'd ever flown; for some, the first they'd ever been in. Fast company for our airmen of tomorrow? Decidedly—for that's what tomorrow's aviation demands. But good company, too: seating the instructor at student's side, the T-37 teaches modern-day better, faster, more safely than ever before.

## "Changing Of The Guard At The Pentagon"

From first page—

the closest possible working relationship with the Joint Chiefs of Staff. Where other Secretaries of Defense lamented endlessly about inter-Service rivalry, and sometimes made allegations of narrow-mindedness by the professional military leaders of the Nation. Secretary Gates decided on quite another tack. He has made it his business to consult frequently with the Chiefs and to give each member of the JCS an opportunity to state his viewpoint in a direct confrontation with the Secretary on controversial issues. No military man could ask more than that of a civilian superior; many have had to settle for much less.

With this strengthening of mutual understanding and respect, the office of the Secretary of Defense has been able to achieve historic all-Service decisions. Not the least of these was the creation of the Joint Strategic Targeting Center at Offutt AFB, Nebr., under General Thomas S. Power, Commander-in-Chief of the Strategic Air Command, with newly promoted VAdm. Edward N. Parker as the Deputy Commander.

It can be reported on unimpeachable authority that Mr. McNamara, having studied the successes scored by Secretary Gates, intends to maintain and perhaps even expand the practice of frequent consultations with the JCS during its deliberations. He has demonstrated his desire to pursue Secretary Gates' highly successful policy of full cooperation with members of Congress, notably those in the Armed Services and Appropriations Committees.

Secretary Gates leaves for implementation by his successor a bold program of action to raise the attractiveness of career military service and thereby strengthen National Defense. During the transition briefings, Secretary Gates, Deputy Secretary Douglas and their associates have had an opportunity to outline for Secretary-designate McNamara and Deputy Secretary-designate Gilpatrick what needs to be done. Secretary Gates has directed the preparation of a comprehensive program on which his successor immediately can take action. Anxious to assure that the Government has an opportunity to use the best talents available, Mr. McNamara can be expected to endorse Secretary Gates' proposals for repeal of dual employment restrictions on Service people. There is little question also—most notably because President-elect Kennedy already has endorsed such action—that Mr. McNamara will add his support to the efforts Secretary Gates has made to eliminate military pay inequities which now penalize thousands on the retired lists.

In short, Captain Gates gives to Colonel McNamara an office which has made impressive progress and which has fixed specific goals for the future, among them the pending plan to eliminate disparities in officer personnel programs in the Service, as embodied in the Bolté Report.

What about the change of command in the Services?

**ARMY**—If Secretary Wilber M. Brucker, a Silver Star winner on the battlefields of France in WWI, has been thwarted in his efforts to gain a full loaf of fiscal support for Pentomic modernization, he has succeeded in winning crucial Congressional support, often over Administration objection. This has affected the Air Force also; Secretary Brucker's role in the Congressional action last year to boost airlift funds was that of a prime mover.

If Secretary Brucker has not succeeded completely in forging a "One Army" concept—and no one who is acquainted with the deep roots of historic branch consciousness would anticipate such complete success in less than a decade—the former Michigan Governor has succeeded in developing a "One Army" spirit among the various combat arms and technical services, and among elements of the National Guard and Reserve.

Secretary Brucker leaves to his successor a legacy that all military people understand—the courage of a man who is willing to fight for his

convictions. A dramatic example of this courage was Secretary Brucker's forthright assertion that the "Gold Dollar Widow" order was a threat to morale and combat effectiveness, and that he intended to do everything possible to "soften the blow" for Army families.

**NAVY AND MARINE CORPS**—Decorated for WWII service aboard carriers, Secretary-designate John B. Connally, jr., takes the helm from Secretary William B. Franke, who directed the final phases of the program that fulfilled the promise of Navy leaders that the start of 1961 would see two Polaris submarines operational. Secretary Franke and Admiral Arleigh Burke, Chief of Naval Operations, have presented the seapower doctrine to Congress and the Nation with brilliant skill. This has led in recent months to actions which have added a carrier to the Sixth and Seventh Fleets and to other decisions which reflect increased recognition of the contribution which the Navy and Marine Corps make to National Defense.

Secretary Franke, during his last months of office, has prepared comprehensive arguments on the need for a greatly accelerated effort in the field of anti-submarine warfare. It can be anticipated that former Lieutenant Commander Connally, benefitting from the Navy's demonstrated successes in the Polaris program, will move at flank speed to maintain and increase the momentum and progress of the Sea Services.

**AIR FORCE**—If Secretary Dudley C. Sharp has failed to achieve the doctrinal unity which marks the public expression of Navy people, the Air Force has not suffered—at least until now—when it comes to budget support. The Kennedy Administration and the 87th Congress, the same as the Eisenhower Administration and each Congress since the "New Look" of 1953, will vote the Air Force the lion's share of the budget.

In Eugene Zuckert, a WWII Naval officer and a former Assistant Secretary of the Air Force under then Secretary Stuart Symington, the Air Force will be assured of aggressive and skilled leadership in the years ahead. It is no secret that Air Force people have views about Defense Organization which differ sharply from those held in the other Services.

The new Secretary, a man who knows his way around Washington, will give new voice to the thinking of professional Air Force military commanders. This will have two results. One, there is good reason to believe that such articulation will halt the increasing "divisive" trend within the individual major commands of the Air Force. Second, the Nation will benefit from a forthright discussion by effective Air Force civilian leaders of changes which their Service advocate in the interests of National Defense.

Such an editorial assessment as this provides no appropriate vehicle for an item-by-item analysis of what has been achieved by Secretary Gates and the Service Secretaries, what they have not been able to achieve, and what remains to be done—at least attempted—by Mr. McNamara and the subordinates who will serve with him. What is evidenced here is the vital fact that on 20 January when Secretary Gates becomes Mr. Gates and Mr. McNamara becomes Secretary McNamara, the changing of the guard will find the Nation rendering to the Navy captain a salute for distinguished tours of duty at the Pentagon. To the Air Force colonel, there will go the best wishes of all citizens, most particularly the members of the Service Family who know, more than any others, that Secretary McNamara faces a fateful mission. That mission is to build and maintain Fighting Forces which can prevent war or, if war comes, assure the survival of our Nation.

## IN THE JOURNAL

### General Marshall Abolishes Medical Office; China

### Seeks German Ally; General Meade Likes Journal

**10 Years Ago**—Secretary of Defense Marshall has signed a directive abolishing the Office of Medical Services and the Armed Forces Medical Advisory Committee and establishing an "Armed Forces Medical Policy Council" composed of the three Surgeons General, three civilian members and a civilian chairman.

**50 Years Ago**—A news dispatch from Pekin says that in the absence of satisfactory progress in the informal negotiations for an understanding between China and the United States, it is believed that China is about to approach Germany with the view to securing an ally.

**97 Years Ago**—"I have received several numbers of the Army and Navy Journal, and have noted with satisfaction the evidence they bear of the promise of usefulness of this Journal. It affords me sincere pleasure to add my contribution to its maintenance, and I therefore herewith enclose the annual subscription, \$5." . . . Geo. G. Meade, Major-General Commanding (Headquarters Army of the Potomac)

## USAF Endorsement Of Bolté Plan Seen

From page 5—

through the failure to make new appointments.

Under the LDO scheme, enlisted men in E-6 and above would be commissioned between the eighth and 10th year of service, and would flow through the officer promotion structure to lieutenant colonel. They would compete among themselves on about the same basis as other officers, with relatively the same retention and attrition.

What this would mean, of course, is that many LDO's who were not chosen for retention beyond 20 years actually would be retiring with 30 years total service, including time as an enlisted man.

### General Officer Selections

One Bolté Report recommendation would affect the method for selection of general officers in the Air Force.

Although it is little known, the fact of the matter is that there is no specific regulation for selection of Air Force general officers. Boards consider eligible officers, and then make recommendations to the Chief of Staff and to the Secretary.

These recommendations can be accepted completely, or there can be changes in the proposed lists.

The Bolté Committee would require that all Services have legally prescribed procedures for all selections, and that there be no authority—except that given to the President—to change the recommendations of a board.

### Readers' Views

#### Bolté Report Coverage

I think that THE JOURNAL coverage was excellent, and will go far toward informing the many thousands of interested officers about the status of the committee's work, people who otherwise might have great difficulty in learning the facts.

Incidentally, as a subscriber to THE JOURNAL for forty-some years, I had looked forward with anticipatory satisfaction to the treatment of this matter, which was fulfilled.

CHARLES L. BOLTE  
GENERAL, USA-Ret.  
CHAIRMAN, AD HOC COMMITTEE  
TO STUDY AND REVISE THE OFFICER  
PERSONNEL ACT OF 1947.

#### Quakers' Comments

As chairman of the Overseers for the Quaker Pilgrimage to Washington in November, I was especially interested in your editorial in the issue of THE JOURNAL of November 19. I am glad that you have pointed out that Quakers are "a tolerant people who respect the views of others." Throughout the history of our group we have been firm defenders and at times agitators for civil liberties and the freedoms which we cherish in America.

There is one statement in your editorial which should be challenged. Quite aside from the morality of fighting with weapons of violence, it could rightly be said, before the advent of the nuclear age, that a country could be protected by military means and, therefore, made "safe for the freedom of expression." This is the practical argument which has made sense to most Americans and which, in the short run, could be substantiated by experience.

With the introduction of nuclear weapons of mass destruction, however, this argument is no longer valid. Our military forces in a nuclear war cannot possibly keep our land safe for the freedom of expression or, for that matter, for anything. The highest military authorities acknowledge that our only hope is to deter the potential enemy by the threat of massive retaliation.

#### NEXT WEEK—

### NEW BUDGET, NEW TEAM

The 21 January issue of THE JOURNAL will feature comprehensive coverage of the fiscal '62 Defense Budget.

This issue also will present stories and photographs of the new Defense Team, led by President John F. Kennedy and Secretary of Defense Robert S. McNamara.

#### Inaugural Notes

The Queens Guard, Rutgers University AFROTC Drill Team, a voluntary organization, New Jersey, Col. Harry C. Morrison, Professor of Air Science, has announced. Commander of the Queens Guard is Cadet Lt. Colonel Kenneth J. Iuso. Advisor is Capt. John A. Miller, a 1954 graduate of Annapolis.

Two sets of twins will march with 1st Battle Group, 3rd Infantry (The Old Guard). They are Sergeants Douglas R. and David B. Johnson, 25, and Specialist Four Kenneth L. and Keith E. Weide, 24. The Johnson twins are members of the Old Guard Fife and Drum Corps. Douglas is chief of the fife section and David heads the colonially-clad units' drum section.

From Saline, Utah, both are elders in the Mormon Church, both have served two years as Mormon missionaries and both have completed three year at the University of Utah.

The Weide twins will march with the Old Guards' Company C in the Inaugural Parade, but normally they're in the company's color guard.

14 Jan. 1961 (Vol. 98, P. 537)

Army Navy Air Force Journal 15

### SECRETARY GATES TO GENERAL BOLTE

GENERAL Charles L. Bolté, USA-Ret., Chairman of the Ad Hoc Committee to Study the Revision of the Officer Personnel Act of 1947 and members of the committee have received letters of appreciation for their service from Secretary of Defense Thomas S. Gates, Jr.

The text of the letter addressed to General Bolté follows:

"The Report of the Ad Hoc Committee to Study the Revision of the Officer Personnel Act of 1947 is an eloquent testimonial to your outstanding achievement in the short time since the Committee was formed."

"I recognize that there were many complex and difficult decisions involved in arriving at your recommendations. The Committee Report clearly reflects the depth of your deliberations and the objectivity, integrity and breadth of executive experience of the members."

"The legislation which will ultimately evolve from your report will, I am sure, be a significant development in improving career attractiveness for the officer corps of all Services and will thereby enable the Department of Defense to be better prepared to meet the challenges of the future. You can take a well-deserved personal satisfaction in the magnitude of your achievement and in the contribution which you as Chairman of the Committee have made."

"I wish to express my deep and sincere personal appreciation for your distinguished work and for the sacrifices you have made in giving up a well-earned retirement to again assist the military services which you so faithfully served in the past."

that the existence of the mandatory 30 year retirement serves as a spur to those professional and talented officers who possess scarce skills to avail themselves of voluntary retirement at 20 year service, and age 41-45. At that age industry and business can foresee long productivity, whereas the usefulness of the individual seemingly is much lessened at the older service and age.

The question of contributory retirement plans has been brought up in the past. Again, this time, no mention is made of the fact that the government in so far as military retirement is concerned has been acting as a self insured organization. One of the reasons, if not expressed in the basic pay legislation, but certainly emphasized in all our recruiting and retention activities, for military pay scales being lower in general than comparable position in civil life is the non contributory retirement. Any change in the present system of necessity should be accompanied by a corresponding increase in take home pay, to prevent reduction in the deferred compensation which retired pay in effect represents.

In summation, the approach appears to be one of "work longer . . . for less total take home pay." It is going to be difficult to keep the highly qualified young engineers and scientists, as well as combat leaders convinced that military service is a rewarding way of life, under such steady erosion of compensation.

ALVIN F. MEYER, JR.  
COL. USAF (MSC)  
1502 SO. 94TH. ST.  
OMAHA 14, NEBR.

#### Seeks Ft. Leavenworth Data

The Fort Leavenworth Museum is particularly interested in the history of units that were based on Fort Leavenworth during the Indian Wars, and in the history of officers who have been students here. The Museum would like to have, photographs, individual or group; letters, books, arms, accountments, and uniforms pertaining to the above subjects.

If any of your readers have articles of this sort that they would like to contribute would they be kind enough to write to: Miss Mildred Cox, Curator, The Museum, Fort Leavenworth, Kansas.

JOSEPH T. CAPLES  
COLONEL, MC  
PRESIDENT  
THE HISTORICAL SOCIETY  
FT. LEAVENWORTH, KANS.

#### 4th Army Coverage

At the end of the year I would like to take this opportunity to thank you and the members of your staff for the excellent coverage given Fourth Army activities during 1960. Your fine magazine has been a "must" to Army personnel for many years and we often look to you first for news breaks.

I am enclosing a color photo of the old Quadrangle here at Fort Sam. While I know you can't use it in a magazine I do hope it may serve as a reminder of our friendship and best wishes for the coming year.

# MEMO -

**SECDEF-DESIGNATE McNAMARA** is passing the word in all DoD and Service echelons that he expects and wants civilian and military officials at the Pentagon and in the field to present conflicting viewpoints as forcefully as possible when they believe this to be in the interests of National Defense. At the same time, he is making it known he expects and will insist that once a decision has been made, the conflict and disputation must stop. This, of course, is what should be expected of any military officer.

**THOSE WHO HAVE TALKED** with the incoming Secretary get a very strong impression that he means business both ways, namely that he wants a full expression of ideas while issues are in the discussion stage, but wants no bickering when the implementation stage is reached.

**MR. McNAMARA IS IMPRESSED** with the striking success Secretary Gates has achieved in reducing inter-Service fights by an elementary method of operation. The outgoing Secretary—more than any of his predecessors—has given the Service Chiefs repeated opportunities to advise him directly at JCS sessions of their viewpoints. Mr. McNamara intends to build on Secretary Gates' approach. What this means is that he plans to be a "leader" and not sit back, wait for split papers to reach his desk and then play the role of "judge."

**IN ARTHUR G. SYLVESTER**, longtime Washington correspondent of the Newark Daily News, Mr. McNamara will have a skilled Assistant Secretary of Defense for Public Affairs. Like the man he succeeds, Assistant Secretary Murray Snyder, who came to the Pentagon from duty as Assistant to Presidential Press Secretary James Hagerty, Mr. Sylvester will work closely with the new White House Press Secretary, Pierre Salinger. But it's a good bet the incoming Assistant Secretary will be given a greater degree of flexibility in day-to-day operations than has been the case in recent years.

**IF PENTAGON EXPERIENCE COUNTS**, and there is little argument that it doesn't, the Air Force will be off and winging come 20 January. Its new Secretary, Eugene Zuckert, is a former AF Assistant Secretary. As The Journal went to press, there were strong indications that one of the Pentagon's foremost fiscal authorities, AF Assistant Secretary (Financial Management) Lyle S. Garlock, would be retained in office by the Kennedy Administration. Deputy Secretary of Defense-designate Roswell G. Gilpatric is a former AF Under Secretary. Mr. McNamara served as an AF lieutenant colonel in WWII, and held a commission as a colonel in the AF Reserve.

**THE ARMY WAS DISAPPOINTED** that, alone of the Services, it was forced to delay indoctrination of its new Secretary. While Secretary-designate Zukert was being briefed at the Pentagon and was flying to visit key AF commands across the Nation, and while Navy Secretary-designate John B. Connally, jr., was getting the latest word on Sea Service developments from Navy admirals and Marine Corps generals (he was also a guest at CNO Arleigh Burke's official residence), the Army was forced to wait for a "jump-off" signal to begin the complex task of briefing a new Secretary.

**IN THEIR CONCERN TO ASSURE** women officers in all Services substantially the same opportunities as men, the Bolté Committee completely overlooked one area where men are seeking equal rights with women. Female Nurse Corps officers in the Services may be granted regular commissions. Their male counterparts, however, may not be integrated into the Regular establishment and, unlike men in all other military specialties, can serve only as Reservists.

**NAVY OFFICERS MAY NOT BE SURPRISED** to learn that a former General of the Army was largely responsible for the Bolté Committee's recommendation to re-institute one-star flag rank. In a letter to the Defense Secretary last January (published as a part of the Bolté Report), the Budget Bureau, discussing selection from rear admiral, lower half to upper half, said "It will be recalled that the President expressed the desire that such selection be provided for." The BoB said it was agreed at the time not to press for immediate Congressional action "to implement the President's wishes," but to defer the matter and deal with it in the comprehensive overhaul of the officer career management structure.

**NOW THAT CONGRESS IS BACK IN SESSION**, protests will mount over the "Gold Dollar Widow" order. Representative Wright Patman, a ranking member of the House Committee on Banking and Currency, has charged that the decision to order dependents home was a "hysterical" move which will have "very little effect on our balance of payments." In a speech to the American Bankers Association, he said: "Frankly, I hope that the President's order will be carefully reconsidered."

**REPRESENTATIVE SAMUEL STRATTON** (D-NY), a member of the Armed Services Committee, has charged that the gold dollar order may seriously harm the Nation's defense effort. He said in the House on 9 January that the "drastic step of putting the major share of the burden of halting the gold outflow onto the wives and children of American servicemen stationed abroad . . . can be at best inadequate and may well be seriously harmful to our overall defense."

**3-STAR AND 4-STAR** Marine Corps generals would be almost doubled under the Bolté Committee recommendations. With a total of 76 general officers, the Corps would be authorized two full generals (instead of one it now has; the Marine Commandant) and nine lieutenant generals (instead of the present five). If the Corps elected to have only one four-star officer, the authorized number of three-star officers could be boosted to 10, double the present number. Under present peacetime limitations, the Marines are authorized only two lieutenant generals.

**THE RETIRED OFFICERS ASSOCIATION** will honor Secretary Brucker at a Pentagon ceremony 19 January, the day before he leaves office, with presentation of a citation. The Secretary has been more vocal than any other Service Chief in support of the fight to equalize retired military pay and to obtain amendments to restrictive dual employment legislation. The citation will be presented by Lt. Gen. Idwal H. Edwards, USAF-Ret., Association President.

**THE COMMITTEE APPOINTED** by the Retired Officers Association to study ways to give members outside Washington more representation at the organization's management level met 6 and 7 January in Washington, D. C. The group (six of the 11 members attended) laid considerable groundwork but reached no final conclusion. Lt. Gen. Homer L. Litzenberg, USMC-Ret., Chairman and spokesman for the committee, said that he feels that a great deal of progress has been made and that he will call another meeting at a later date.

**THE THIRD AIR FORCE**, stationed in England, is getting a new commander. Maj. Gen. Ernest Moore, who has been commander for more than three years, was first ordered to command the Air University's War College, but these orders have now been cancelled and he is awaiting new orders. Meanwhile, he will be succeeded, about 1 March, by Maj. Gen. John H. Ives, who has been Deputy Commander of the Third.

**AN AIR FORCE VETERINARIAN**, Maj. C. V. Lang, has won a Marine Corps Letter of Commendation. He was cited for food inspection service while assigned to the Camp Lejeune, N. C., Marine Corps Base.

**PENTAGON PRESS CORPS DEAN** Mark Watson, Pulitzer Prize-winning Military Editor of the Baltimore Sun, this week was in Johns Hopkins Hospital in Baltimore with an eye malady. A prolific reader and distinguished book reviewer, Mr. Watson, at 73, is a year-round tennis player, an activity that he now must reluctantly suspend for a while.

**CARL SANDBURG WILL PROVIDE** the foreword for a book being written by Brig. Gen. S. L. A. Marshall, USAR-Ret., famed combat historian of WWII and Korea and Military Editor of the Detroit News. General Marshall, whose multi-sided career included juvenile roles in the movies, is working on a book to be called "Night Drop." It is the story of the paratroop landings on Normandy.

**THE FORMER COMMANDER** of the Army Command Reconnaissance Activity, Pacific, a post he held for 6 years, Col. John B. Stanley, USMA '34, has retired. He will reside in Tokyo and will be affiliated with the Fujita Tourist Enterprises and the Nippon Dredging Company.

**GENERAL CURTIS E. LE MAY**, AF Vice CofS, who pioneered the program as CinC of SAC, and his successor at Offutt AFB, Nebr., General Thomas S. Power, will be less than enthusiastic about the Bolté Committee recommendation that would end "spot promotions" in SAC. The likelihood is, however, that the Air Force, which unanimously supports most of the Bolté Report, will be willing to give up the "spot promotions" to win approval for the other recommendations.

**THE HARD FACTS OF THE CASE**, as told on Page 5, are that unless the Air Force receives immediate relief from the Officer Grade Limitation Act, career opportunities will be placed in great jeopardy, particularly for junior officers. The Air Force will need to work hard to convince Congress that ideas about rapid promotions for AF officers belong to the days of WWII and are no longer applicable. If the Air Force was once ahead of the other Services in the promotion pace, it now trails. A promotion list disaster was averted temporarily in 1959 when General LeMay went to Capitol Hill to urge successfully passage of emergency legislation authorizing 3000 additional Air Force majors.

**PRESIDENT EISENHOWER'S ARMY COPTER PILOT**, Lt. Col. William A. Howell, will be assigned 20 January to the Army Aviation Center at Ft. Rucker, Ala. Colonel Howell has been Senior Army Presidential Helicopter Pilot and Commanding Officer of the Executive Flight Detachment at Ft. Belvoir, Va., since 1957. Primary mission of the Detachment, shared with a Marine Corps copter unit at Quantico, Va., is for evacuation of the President, his family and key White House officials in event of national emergency.

**COL. RICHARD M. LEE**, who marched in the '32 Inaugural Parade of President Franklin D. Roosevelt as a member of the Western High School Corps of Cadets in Washington, D. C., will lead the Presidential escort, the 1st Battle Group, 3d Infantry (The Old Guard) in the '61 Inaugural Parade. He commands the famed Army unit at Ft. Myer, Va., which is responsible for scores of military ceremonies in the Capital each year and which also has the honor of guarding the Tomb of the Unknowns at Arlington National Cemetery.

**IF SENATOR JOHN STENNIS** (D-Miss) takes over the chairmanship of the Senate Armed Services Preparedness Investigating Subcommittee, as expected, there is a good chance he will relinquish the chairmanship of one of two other subcommittees which he now heads. One is the personnel subcommittee and the other is the military construction subcommittee. Both require major effort.

## help on investing

for those in service  
at home and overseas

Could you use another source of income?—For your  
children's education, a retirement fund, or to help you  
stretch your service pay further?

To achieve these goals, thousands of service men and  
women have turned to Harris, Upham's Armed Forces  
Department for help in selecting dividend-paying common  
stocks, whose value tends to keep pace with living costs.

Our Armed Forces Department under General John E.  
Dahlquist (Retired) is experienced in helping military  
personnel with their specialized investment problems. It  
is backed by nationwide brokerage facilities in 36 offices  
from coast to coast—along with Harris, Upham's well-  
regarded Research and Mutual Fund Departments.

Our MILITARY INVESTMENT MANUAL describes our ser-  
vices, and explains the fundamentals of investing. If you  
are interested in extra income, you may obtain a free copy  
of this useful booklet simply by filling out and mailing the  
coupon below.

## Marine Battalions Get New Designations; Shift Affects Units Arriving In Far East

Marine replacement battalions have been given new designations.

As a result of the transplacement system, infantry battalions of the 1st and 3d Marine Divisions had become intermingled. Under the plan, each infantry battalion assumed the identity of the regiment to which it is currently attached and dropped all identity with its former parent regiment.

In the future, transplacement battalions arriving in the Far East will assume the designation of the battalion relieved. Redesignations will be effected the day actual on-site responsibilities are assumed from the returning battalion. The returning battalion will at that time take the designation of the regiment with which it will serve in the 1st Marine Division.

Administrative control for battalions en route from CONUS to the Far East will reside with the 3d Marine Division.

Battalions en route to Camp Pendleton will be administered by the 1st Marine Division.

### AMC INFO CHIEFS

Col. W. T. Kemp and Col. B. L. Baker have arrived at AMC Headquarters, Wright-Patterson AFB, Ohio, and assumed respective duties as Director and Deputy Director of the Office of Information.

Colonel Kemp had been Commander of AMC's 2708th Logistic Task Force at Memphis, Tenn. Earlier, he had been Commander of the former Memphis AF Depot.

Colonel Baker came to AMC from the Air Force Accounting and Finance Center, where he was Director of Administration and earlier was Cofs.

## Cited For Polaris Work

TWELVE naval officers and 12 civilians in key positions with the Navy's Polaris system have been given awards by Secretary William B. Franke.

The following awards were made:

### DISTINGUISHED SERVICE MEDAL

Capt. Levering Smith, Technical Director of Special Projects, 5041 Waggaman Circle, McLean, Va.

### LEGION OF MERIT

Capt. Roy G. Anderson, Head of Plans and Programs Branch, Special Projects Office, from 20 December, 1955 to 18 September, 1958, now on the staff of CinC Atlantic, Norfolk.

Capt. Kenan C. Childers, Jr., Head of the SP Field office at Patrick AFB, Fla., has orders to report as Commanding Officer of the Navy's Missile Test Center, Pt. Mugu, Calif.

RAdm. John B. Colwell, Deputy Director, SPO from 5 December, 1955 to 30 December, 1957, currently attached to the Staff, CNO. Now lives at 4723 North 24th Street, Arlington, Va.

Cdr. August A. Ebel, Head of the SPO Navigation Branch, lives at 7311 Arrowsmith Road, Bethesda, Md.

Capt. Kenneth K. Ela, Head of the SPO Launching and Handling Branch from 16 March, 1956 to 4 August, 1960, is now attached to the Puget Sound Naval Shipyard, Bremerton, Wash.

Capt. Clarence M. Hart, Head of the SPO Ship Installation and Design Branch, lives at 6409 Marjory Lane, Bethesda, Md.

Capt. William A. Hasler, SPO representative in Sunnyvale, Calif.

Capt. Frank B. Herold, Head of the SPO Fire Control and Guidance Branch from 30 December, 1955 to 20 July, 1960, is now Commanding Officer of the Naval Electronics Laboratory in San Diego.

Capt. Roderick O. Middleton, Head of the SPO Missile Branch since January 1957. He has been ordered to report as Commander, Destroyer Division 142 early this year. He lives at 5004 Elsmere Place, Bethesda, Md.

Capt. John F. Rebo, Head of the SPO Ship Operation and Test Branch from 14 January, 1958 to 20 July, 1960, is now attending the Armed Forces Industrial College in Washington. He lives at 2605 South Joyce St., Arlington, Va.

Capt. James C. Wootton, Deputy Director of the SPO Technical Division, lives at 5100 Elsmere Avenue, Bethesda, Md.

### NAVY DISTINGUISHED CIVILIAN SERVICE AWARD

Mr. Albert Applebaum, a Special Consultant to SPO, is attached to the Applied Physics Laboratory of Johns Hopkins University and lives now at 1304 Ruppert Road, Silver Spring, Md.

Mr. George R. Barrie is Head of the SPO Structures, Controls and Integration Section of the Missile Branch and lives at 137 Fleetwood Terrace, Silver Spring, Md.

Mr. John B. Buescher, Chief Engineer of the SPO Technical Division, lives at 1706 Lanham Road, Falls Church, Va.

Mr. Joseph Cestone, Engineer of the SPO Navigation Branch, lives at 5207 Nahant Street, Glen Mar Park, Md.

Dr. John P. Craven, SPO Chief Scientist of the Special Projects Office, lives at 7017 Arandale Road, Bethesda, Md.; was given the Navy Meritorious Civilian Service Award in September 1956.

Mr. Roy E. Danielson, Chief Engineer of the SPO Missile Branch, lives at 5800 39th Avenue, Hyattsville, Md.

Mr. Jack Fagin, Ship Installation and Design Branch Engineer in the SPO, lives at 2930 Powder Mill Road, Adelphi, Md.

Mr. David Gold, Chief Engineer of the SPO Fire Control and Guidance Branch, lives at 8603 Barron Street, Takoma Park, Md.

Mr. Sidney Hersh, SPO Launcher and Handling Branch Engineer, lives at 1001 Woodland Dr., Silver Spring, Md.

Mr. Bernard H. Kahn, Head of the SPO Resources Branch, lives at 10200 Duvawn Place, Silver Spring, Md.

Mr. Hugh McCullough, SPO Director of the Plans and Programs Division, lives at 9607 Parkwood Drive, Bethesda, Md.

Mr. Peter Waterman, Special Consultant to SPO, attached to the Naval Research Laboratory, lives at 25 Brandywine Street, N. W., Washington, D. C. He received the Distinguished Civilian Service Award once before in 1957.

Viet Nam To Ft. Sill

Lt. Col. Alexander A. Terris has been named to succeed Lt. Col. Truman F. Cook as Commanding Officer of the 2d Howitzer Battalion, 36th Artillery at Ft. Sill, Okla.

Colonel Terris reports from assignment with the MAAG in Viet Nam. Colonel Cook has been assigned to the 52d Artillery Group at Ft. Sill.

## B/G Edwards To Lewis

Brig. Gen. Norman B. Edwards, Ft. Ord, Calif., Army Training Center CofS, will be assigned to the 4th Infantry Division, Ft. Lewis, Wash., next month.

Maj. Gen. Charles D. W. Canham, XI Army Corps CG, St. Louis, will retire 31 January, after more than 34 years service.

## Garrett Names Veteran

The Garrett Corporation, Los Angeles, has announced appointment of G. C. "Gad" Pearce as Assistant to the Vice President in charge of sales after being associated with the General Motors Corporation for the last 20 years, most recently as Western Manager for the Allison Division in Los Angeles.

Mr. Pearce joined Allison prior to WWII, following an honorable discharge from the Air Corps.

## Navy Junior Officers

The Navy has listed the names of junior unrestricted line and staff officers in permanent and temporary grades, Navy as of 1 December 1960, who have been commissioned in, or have become due for promotion to the grades indicated, under the provisions of Title 10, U. S. Code:

### Benning Army Daughters Plan '49er Benefit

The annual 49er party sponsored by the Daughters of the U. S. Army, will be held 4 February at Ft. Benning, Ga. Mrs. George A. Millener, Jr., DUSA, President, has announced that Col. Sydney E. Sacerdote will be Party Chairman.

Committee chairmen from DUSA are Mesdames Harry Hiestand, Decorations; P. C. Withers, Food; A. J. B. McFarland, Cigarette Girls; Robert E. Morris, Games, and Charles B. Lee, Publicity. Entertainment will be planned by Mrs. Rolfe Arnyhm, and Mrs. James Melish will represent Junior Army Daughters.

Military committee chairmen are Lt. Col. J. E. Noble, Jr., Games; Lt. Col. Herman Park, Banking; Maj. Freeman Jones, Security, and Maj. Raymond King, Tickets and Admissions. Others are Capt. John Milton, Personnel; Lt. R. C. Soderstrom, Property, and Lt. Don S. Payne, Photography.

Proceeds from the 49er Party will benefit Benning charities. Over \$5,000 was raised last year. Donations included those to Tot Town Nursery, Youth Activities Club, Martin Army Hospital, the Army Visiting Nurse Program and other worthy organizations.

### Service Folk

**Mrs. Emerson L. Cummings**, wife of the out-going Eighth Army Deputy Commander, Lieutenant General Cummings, received a letter of appreciation from the Korean National Association of Social Work for her interest and participation in social work while in Korea.

General and Mrs. Cummings, in Korea since December 1958 departed 5 January for Chicago where he will command the Fifth Army.

**Betay Fine**, 14-year-old daughter of Capt. and Mrs. William T. Fine, USA, won 70 blue, red and gold ribbons during horse shows last summer. She is the Grand Champion of the 4-H class in Pennsylvania. She intends to study to become a veterinarian.

**First Lt. August Schomburg Jr.** received his diploma from the Army Ordnance Guided Missile School at Huntsville, Ala., from his father, **Major General Schomburg**, Chief of the Army Ordnance Missile Command at Redstone Arsenal. Lieutenant Schomburg, who attended the American High School in Heidelberg, Germany, and was graduated from The Citadel at Charleston, S. C. in 1958, he has been assigned as aide-de-camp to his father.

**Mrs. Marge Prince** has been named Family Services Volunteer of the Year at Travis AFB, Calif. Her husband is **Maj. Robert D. Prince**, Assistant Director of Administrative Services for Western Transport Air Force (WESTAF). Their son, **Robert, Jr.**, recently completed paratrooper training at Ft. Bragg, N. C.

**Miss Susan Stone**, daughter of the U. S. Air Force Academy Superintendent, Maj. Gen. and Mrs. William S. Stone, was presented by her father at the gala annual Debutante Ball at the Brown Palace Hotel, Denver, 22 December.

A graduate of Holton Arms School, Washington, D. C., and now a junior student at the University of Colorado, Miss Stone was one of a group of 20 young ladies presented. Her escorts were Cadets Carl Oliver and Bruce Hines, both USAFA.

### KENNEDY WILL GET BERLIN KIN APPEAL

**R**EBUFFED by Secretary of Defense Gates and President Eisenhower, the Army will ask their successors to exempt West Berlin from the overseas family cuts. The Army is expected to have strong support from the State Department in this renewed request.

The present dependent population in West Berlin is 3,232. It has been learned on indisputable authority that senior military commanders in Europe have been urged by outgoing Secretary of the Army Wilber M. Brucker to maintain this family strength behind the Iron Curtain. Under the Eisenhower Administration policy, families in West Berlin must count against the total quota for Europe.

In the post-20 January appeals to President Kennedy and Secretary McNamara, the Army leadership will make the point that a withdrawal of dependents would take place at the same time that West Berlin is fearful of new propaganda assaults by the Communists this Spring.

### Defense-Industry Advisory Panel Strives To Maintain High Quality Moving Service

**A** NEWLY created Advisory Panel for Household Goods Traffic Management has met at Military Traffic Management Agency Headquarters in the Nation's Capital, it is announced by Maj. Gen. I. Sewell Morris, MTMA Executive Director.

Comprising representatives of the household goods industry and the four Services, the Advisory Panel assists MTMA in providing effective traffic management service for the movement of the household goods of Armed Forces personnel and Department of Defense (DOD) civilian employees via commercial carriers.

Among the stated objectives of the Advisory Panel are the maintenance of high quality service, regulations and procedures mutually beneficial to the Military Departments and the moving industry, and adequate understanding of these regulations and procedures by the various elements of the Military Departments and the moving industry.

Military Traffic Management Agency representatives at the Advisory Panel meeting included Maj. Gen. Morris, Col. J. W. Higgins (Directors of Traffic), Lt. Col. Arthur Hurow (Chief of General Traffic Division), Lt. Col. W. J. Lee (Chief of Household Goods Branch), and J. E. McCormick (Assistant Chief of Household Goods Branch).

Representing the Services were D. E. Knox, Army; Cdr. V. V. Moffett, Navy; Maj. Millard H. Gassaway, Air Force, and Capt. G. J. Hepp, Marine Corps.

Members of the Household Goods Advisory Panel (Industry) in attendance were: E. J. Flavin (Allied Van Lines, Inc.) and A. E. Crowe (Vet Vans), representing American Movers Institute; Phil Archer and Jim Gorson of Air

Traffic Conference of America; R. W. Morgan (Universal Carloading Company), representing Freight Forwarders (Regulated); Ralph W. Johnson (Van-Pac, Inc.), from Freight Forwarders (Unregulated); L. A. Larrimore (United Van Lines) and Francis Wyche, representing Household Goods Carriers Bureau; Russel E. Garrett (John F. Ivory Company) and Nicholas Shishkoff (Dean Van Lines), representing Movers Committee for Equitable Distribution of Government Traffic; Edward W. Schumacher (Global Van Lines) representing Movers Conference of America; and John T. McBrayer (Weathers Brothers Transfer Company, Inc.) and John N. Geipe (J. Norman Geipe Van Lines), representing Movers and Warehousemen's Association.

The Department of Defense issued a directive (4500.27) on 1 July 1960, delineating the revised policy for transporting the uncrated household goods of its military and civilian personnel. In implementation of that directive, MTMA prepared traffic management procedures designed to assure highest quality moving services at the lowest over-all cost to the Government. To insure uniform interpretation and implementation of the new policy and procedures, MTMA then held a series of seminars throughout the country to brief commercial carrier representatives and transportation officers of the various military installations.

A Certificate of Achievement has been awarded to the members of MTMA's Household Goods Branch for the superior manner in which the complexities of the new household goods program were resolved and in which the household goods seminars were conducted.

### Service Weddings

### and Engagements

**M**RS. Lesley J. McNair, wife of the late General McNair, is shown here with Col. Glenn J. McGowan during a New Year's visit to the historic fort in the Nation's Capitol which is named after her husband.

#### I.G. Wives Will Meet

The Inspector General Officers Wives will hold their first 1961 luncheon at "The Old Club" in Alexandria, Va., on 19 January. Sherry will be at 12 noon, followed by a short business meeting. Colored slides of Turkey will be shown by Mrs. Frederick McGinnis.

**Mrs. Edward H. McDaniel**, wife of Major General McDaniel, the Inspector General, and Mrs. David Buchanan, wife of Major General Buchanan, will be honor guests.

#### Ft. McClellan Aids Distaff

The Ft. McClellan, Ala. Officers Wives Club has presented a check for \$250 to Col. Lon H. Smith, Post Commander, for the Army Distaff Foundation. Making the presentation was Mrs. Doris Limoncelli, Club President, and Mrs. Greta Kontra.

Mrs. Kontra headed the committee which organized the benefit bridge night for the foundation. Committee members included Mesdames J. T. Hiett, J. L. Cabassa, J. M. McCreary, Charles Smith and Herbert Gay.

Miss Huchthausen

**C**OL. (USA-RET.) and Mrs. Walter Huchthausen of The Bronx, N. Y., announce the engagement of their daughter, Katherine Ann, to Cadet Michael Emmett Ekman, USMA, son of Col. (USA) and Mrs. William E. Ekman of 103 Ingalls Rd., Ft. Monroe, Va.

Miss Huchthausen is a student at Mary Washington College of the University of Virginia at Fredericksburg. Her fiance, first classman at the Military Academy, is a graduate of Valley Forge Military Academy. The grandson of CWO Wallace Creighton Welch, his father is currently Division Chief, MPM, G1 Section, Headquarters USCONARC.

**KENNY-MINER**—Col. (USA) and Mrs. Russell M. Miner of 1211 Rebecca Dr., Alexandria, Va., announce the engagement of their daughter, Nancy Lee, to Mr. Michael Douglas Kenny, son of Mr. and Mrs. Francis S. Kenny, also of Alexandria.

Miss Miner attended the University of California at Berkeley, and George Washington University. Her fiance is a student in Electrical Engineering at Purdue University.

The wedding is planned for 22 January at the St. Louis Catholic Church, Alexandria.

**JACKSON-METCALFE**—Col. (USA) and Mrs. Charles G. Metcalfe of 2240 No. Trenton St., Arlington, Va., have announced the engagement of their daughter, Judith G., to Mr. Ross B. Jackson, son of Mr. and Mrs. Seth Jackson, also of Arlington.

Miss Metcalfe, whose father is Chief of the Army Comptroller Division of the National Guard Bureau, is a senior student at Emory University, where she is

a member of Delta Gamma sorority and the Alpha Kappa Delta Sociology honorary society. Mr. Jackson, a senior at Colgate University and a member of the Kappa Delta Rho fraternity, plans to enter the Divinity School next fall.

**MAGNESS-KEARINS**—Maj. (USA) and Mrs. Patrick Francis Kearins of 1003 Custis Pkwy., Falls Church, Va., announce the engagement of their daughter, Toni Marie, to Cadet Thomas Henry Magness, III, USMA, son of Colonel (USA) and Mrs. Magness, Jr., of 4614 35th St., No. Arlington, Va.

Miss Kearins, who is a graduate of the Academy of Notre Dame, attends Georgetown Visitation Junior College. Her fiance, a first classman at West Point, attended VPI.

A June wedding is planned.

**KANE-SCANLON**—Dr. and Mrs. John Joseph Scanlon of Westport, Conn., announce the engagement of their daughter, Agnes Brooks, to 2d Lt. George Robert Kane, USA, son of Lt. Col. (DC, USA) and Mrs. George Francis Kane of 7818 Harris Loop, Argonne Hills, Ft. Meade, Md.

A graduate of Our Lady of Mercy Academy, Milford, Conn., Miss Scanlon attended the Washington, D. C. Hospital Center School of Nursing. She is the granddaughter of the late Dr. and Mrs. Leo F. Stock of Washington, and of Mrs. Josephine Scanlon of Westport, and the late Dr. Thomas Francis Scanlon. Lieutenant Kane, a graduate of Georgetown University, where he was Chapter President of Scabbard and Blade, is currently stationed at Ft. Benning, Ga.

A February wedding is planned.

Miss Kearins

**BULGIN-MATHER**—Maj. Gen. (USA) and Mrs. George Robinson Mather of Ft. Sam Houston, Tex., announce the engagement of their daughter, Kathleen Carmichael, to Mr. Randolph McGuire Bulgin, son of the late Mr. and Mrs. Lawrence Gould Bulgin of Franklin, N. C.

Miss Mather, a graduate of Sweet Briar College, who spent her junior year at the Sorbonne, is now teaching Languages at Chatham Hall in Virginia, and has been awarded a Woodrow Wilson Fellowship for graduate study. She is the granddaughter of Mrs. James A. Mather of Long Beach, Calif., and the late Maj. Gen. (USA) and Mrs. Roderick Leland Carmichael. Her fiance, who is a graduate of Davidson College and was a Fulbright Scholar at the University of Bristol, England, received an M. A. degree from Princeton University, where he is now a candidate for a Ph. D. degree in English.

The wedding is planned for early Summer.

**GREENE-KNAPP**—Brig. Gen. (USAF) and Mrs. James B. Knapp of Offutt AFB, Nebr., have announced the engagement of their daughter, Gail, to Lt. LeRoy V. Greene, jr., USAF, son of Colonel and Mrs. Greene of Philadelphia.

Miss Knapp is a senior student at the College of St. Mary, Omaha, where she is President of the Student Council, and a member of the Sigma Phi Sigma national honor society. Lieutenant Greene, USMA '59, is assigned to the 566th Strategic Missile Squadron at Offutt AFB.

A June wedding is planned.

**ELLIS-HARNLY**—Dr. Morris Harnly of New York and Woods Hole, Mass., has announced the engagement of his daughter, Monique Lecuyer, to Lt. James Garfield Ellis, III, USAF, son of Mr. and Mrs. Ellis, of Washington, D. C.

Miss Harnly, also daughter of the late Mrs. Harnly, was graduated from the Brearley School and Carleton College, and has been teaching at Falmouth, Mass. Her father is a Professor of Biology at New York University. Now stationed at Otis AFB, Mass., as a helicopter pilot, her fiance is a graduate of Pennsylvania State University.

The wedding is planned for 11 February at Trinity Protestant Episcopal Church, Moorestown, N. J.

**SMITH-SPARROW**—Brig. Gen. and Mrs. Herbert G. Sparrow of 423 Hamilton Rd., Ft. Sill, Okla., announce the engagement of their daughter, Virginia Winslow, to Lt. Selwyn D. Smith, III, son of Brig. General and Mrs. Smith, jr., of Nurnberg, Germany.

Miss Sparrow is a senior student at Mt. Holyoke College. Her fiance, Princeton University '60, is currently stationed at Ft. Knox, Ky.

A June wedding is planned.

**PLANTZ-NELSON**—Maj. Gen. and Mrs. Ralph Thomas Nelson of Arlington, Va., announce the engagement of their daughter, Alexa Clarke, to Mr. Albert Riker Plantz, son of Mrs. Elizabeth Riker Plantz of Pittsburgh, Pa., and the late Mr. Arthur MacGregor Plantz.

Miss Nelson, whose father is the Army's Chief Signal Officer, was graduated from St. Agnes School, Alexandria, Va., and from Chatham College, Pittsburgh. Her fiance, who attended Carnegie Institute of Technology, where he was a member of the Beta Theta Pi fraternity, will return there for further study upon his completion of a tour of military service.

A June wedding is planned, to take place at Ft. Myer, Va.

**MANLEY-PRATHER**—Maj. Gen. (USA) and Mrs. Richard Givens Prather of Ft. Holabird, Md., have announced the engagement of their daughter, Marjorie Elizabeth, to Mr. Frank W. Manley, son of Mr. Frank F. Manley of Oklahoma City, Okla., and the late Mrs. Manley.

Miss Prather, whose father is the Chief of the Army Intelligence Corps and Commanding General of the Army Intelligence Center, is the granddaughter of Mrs. James B. Gowen of Arlington, Va., and the late Brigadier General Gowen, USA, and of Mrs. Hugh Prather of Hickman, Ky., and the late Dr. Prather. She attended Smith College, is a graduate of George Washington University, where she was a member of the Pi Beta Phi sorority, and is now a research assistant for the National Academy of Science, Washington, D. C. Mr. Manley, a Chemical Engineering graduate of the University of Notre Dame and a lieutenant (jg) in the Naval Reserve, is Manager for McGregor & Werner International in Vientiane, Laos.

A February wedding is planned.

**HOWELL-PRICE**—Lt. Col. Lenore M. Price, WAC Staff Advisor with the Sixth U. S. Army, Presidio of San Francisco, and daughter of Mrs. Sidney R. Price of Los Altos, Calif., and the late Mr. Price, became the bride of Col. Edwin N. Howell, USA, Sixth U. S. Army Provost Marshal, and son of Mrs. Hattie Howell of Ventnor, N. J., 17 December at the Presidio quarters of Col. and Mrs. Robert L. Cardell.

Mrs. Howell, a graduate of Cornell University, was commissioned in the

## Col. Matlock Leads Transportation Unit

Col. Hallie A. Matlock has assumed command of the 48th Transportation Group (Truck) at Ft. Eustis, Va.

He succeeds Col. M. J. Reichel, who became Transportation Officer for the U. N. Command and the Eighth Army in Korea. While Colonel Reichel is in Korea, his wife Lillian and his two daughters, Kathryn and Karen, will reside at Stoneybrook, near Fort Eustis.

Colonel Matlock is married to the former Marian Blount of Ashdown, Ark. He and Mrs. Matlock have three daughters, Annette, Mary Frances, and Josephine.

### Sperry Wins Navy Award

A \$2.5 million contract for production of angle-solving equipment used in torpedo fire control systems has been awarded by the Naval Bureau of Weapons to Sperry Gyroscope Company, Great Neck, N. Y.

The advanced device computes the angle between a submarine and its target and reports its findings to a computer which determines the course of the torpedo. Already in use aboard some nuclear submarines, angle solvers also can be incorporated in older fire control systems. This saves the Navy the cost of producing entirely new systems.

### Capt. Thomas To Howard

Capt. Henry O. Thomas, who has been with 7th Cavalry, 1st Cavalry Division in Korea, has been reassigned to the ROTC Instructor Group at Howard University, Washington, D. C.

WAC in February 1943. Colonel Howell, USMA '38, is the brother of Col. John N. Howell, USA.

## Epidemiological Board Is 20 Years Old; Studies Range From Colds To Radiation

THE Armed Forces Epidemiological Board celebrated its 20th anniversary 11 January.

Consisting of top civilian medical scientists, the Board was established in 1941 to advise the Army and later the other Services on preventive medicine problems of military importance.

President is Dr. Gustave J. Dammin, Professor of Pathology at Harvard Medical School. Col. John Rizzolo, USAF, MC, is Executive Secretary.

Through 12 commissions, the Board advises the Surgeons General concerning research in infectious diseases and injuries which adversely affect military personnel.

These include influenza, acute respiratory disease, streptococcal and staphylococcal disease, enteric infections, parasitic, rickettsial and viral diseases, environmental hazards and accidental trauma.

This group advises upon field investigations conducted by its members in connection with studies on the prevention of epidemic diseases. An outstanding example has been influenza studies which were stimulated by the World War I experience when twenty million deaths from influenza and pneumonia occurred throughout the world.

Rapid expansion of the Armed Forces in 1940 created a need for an organization that would enable civilian and military physicians and scientists to pool their knowledge to prevent a repetition of World War I's high disease rates.

In 1941 the Secretary of War authorized establishment of a "Board for the Investigation and Control of Influenza and Other Epidemic Diseases in the Army." Subsequently known as the Army Epidemiological Board, it assumed its present title in 1949.

In peacetime the Board functions as more than an advisory group. Research conducted under its guidance and financially supported largely by the Army Medical Research and Development Command aims at preventing future losses of military manpower from disease and injury.

Personnel of the Board participate in a broad field of investigation including studies of penicillin sensitization, staphylococcal food poisoning, the common cold, streptococcal infections, influenza vaccine, growth of viruses, diarrhea, infectious hepatitis and various tropical diseases. A current important area of interest to the Board concerns the effects of radiation on infection and immunity.

### Women Service Chiefs Greet WAC Director

COL. Mary L. Milligan, WAC Director, was sworn-in to her second term of office during a ceremony in the office of Secretary Wilber M. Brucker. She is the fifth Director of the Corps and the first to be reappointed to the post.

Top women of the military services congratulated Colonel Milligan. Left to right are Col. M. M. Henderson, Marine Corps; Secretary Brucker; Colonel Milligan; Col. E. J. Riley, U. S. Air Force; and Cdr. Viola B. Sanders, representing the Assistant Chief of Naval Personnel for Women, Capt. Winifred Quick.

### Flying Officers Warned On Insurance; "Excused" Status May Not Alter Premiums

If you are an officer placed on restricted flying status, don't jump to the conclusion that you are now entitled to lower "non flying" premiums on your commercial insurance policy. Before you take any action check with your insurance company or you may be endangering the financial future of your family.

This, in short, is a warning being prepared for all officers by the Air Force. The Navy is expected to issue a similar caution.

Air Force officials say that many officers, excused from meeting proficiency flying requirements after completing over 20 years' rated service or because of isolated duty assignments overseas, have requested their insurance companies to lower their premiums on the basis that they are no longer assigned to flying duties.

Some have, without consultation, reduced their premiums to the non-flying rates.

Unless such reductions are specifically approved by the insurance company, Air Force officials say, these companies may not have to pay death benefits if the officer is killed in a flying accident.

Air Force officials point out that any officer who receives incentive pay for flying must be classed as a flying officer on flight status, even though he is ex-

cused from meeting proficiency flying requirements.

Under present laws, the Air Force Judge Advocate General has advised, no officer who possesses competent orders directing his participation in aerial flight may be ordered to discontinue flying without jeopardizing his entitlement to flight pay. Such an officer may, however, be restricted from performing proficiency flights.

Thus, an officer excused from meeting proficiency flying requirements, but collecting flight pay under the "over 20" or isolated duty plan, must be considered to be on flying status and in most cases must pay the higher flying premiums for his insurance.

Some insurance companies, however, may make some adjustments if they are fully informed of an officer's "excused" status. This, the Air Force says, is a matter each officer should talk over with his insurance company.

The Air Force makes the distinction between officers who are currently "excused" from meeting proficiency flying requirements and those who in the future may be taken off flying status under an accrual or requital plan. The latter group most probably will be considered to be off flying status since their accrual or requital pay will not be based upon effective flying orders.

### Tables Show Bolté Recommendations For Revision Of Totals In Field Grades

THE Bolté Committee has proposed a revision of the number of field grade officers in all Services to provide more equality of promotion opportunity for all officers.

The first chart, below, represents the number of colonels, lieutenant colonels and majors in each service, if the distribution is based upon the current field grade authorization for the Air Force.

In the second chart, the redistribution is planned on the basis of present total officer authorizations within the Department of Defense. The italic percentages below the grades on each chart represent the percentage of all officers who may hold field grades.

#### Redistribution Based On Air Force

		Colonel	Lt. Colonel	Major*
<b>Air Force</b>	Current	5,048	10,139	22,247
	Current	4,578	10,649	14,702
	Proposed	3,519	7,071	15,538
	Diff	-1,059	-3,578	+ 836
<b>Navy</b>	Current	3,015	7,432	11,278
	Proposed	2,565	5,155	11,328
	Diff	- 450	- 2,277	+ 50
<b>Marine Corps</b>	Current	679	1,395	2,714
	Proposed	636	1,279	2,811
	Diff	- 43	- 116	+ 97

\*Does not include temporary authorization for 3,000 majors through 30 June 1961.

#### Redistribution Based On 1960 DoD Total

	Total Field Grade Officers Authorized in DOD	93,866
	Total Officers Authorized in DOD as of 30 June 1960	282,271
<b>Air Force</b>	Colonel	Lt. Colonel
	4.72%	10.49%
	5,048	10,129
<b>Army</b>	Proposed	Major
	5,716	22,247
	Diff	21,858
<b>Navy</b>	+ 668	+ 389
	Current	12,703
	Proposed	14,702
<b>Marine Corps</b>	Diff	15,200
	- 602	- 498
	Current	8,834
	Proposed	11,278
	Diff	11,131
	- 104	- 147
	Current	6,469
	Proposed	11,328
	Diff	- 963
	- 104	- 147
	Current	1,395
	Proposed	2,714
	Diff	2,762
	+ 43	+ 48
	Field Grade Authorized	210

\*Less Medical, Dental, and General Officers.

#### Officer Rank Structure

THE following is an over-all summary from the Bolté report showing the plan to add to the colonels/captains and lieutenant colonels/commanders grades. Detail tables by Services appeared on page 27 of last week's JOURNAL.

#### Department Of Defense\*

Total Authorized Officer Strength (Less Medical and Dental Corps)—282,271	Col/Capt	LtCol/Cdr	Maj/LtCdr
Current Grade Distribution .....	13,320	29,065	50,941
	4.72%	10.49%	18.05%
Proposed Authorized Grade Distribution .....	15,525	34,860	49,962
	5.50%	12.35%	17.70%
Difference Between Current and Proposed Authorized Grade Distribution .....	+2,205	+5,255	-979
Field Grade Authorized .....	33.25%		
Field Grade Proposed .....			
Authorized .....	35.55%		

\*Less General Officers.

### Mrs. Stilwell Lifts All Restrictions On General's Wartime Papers

MRS. Winifred Stilwell, widow of the late General Joseph W. Stilwell, will remove all restrictions on the General's wartime papers which are deposited in the Hoover Library for War, Revolution and Peace, at Stanford University, Palo Alto, Calif., effective 11 December.

Dr. W. Glenn Campbell is Director

of the Hoover Library.

General Stilwell was the U. S. commander in the China-Burma-India Theater and CofS to Chiang Kai Shek during the early years of WWII. He later commanded Army Ground Forces, the Army's wartime training establishment, and the U. S. Tenth Army during the battle of Okinawa. He died in 1946.

## USBA INSURANCE POLICY COVERAGE EXTENDED; POLICIES CAN BE HELD AFTER LEAVING SERVICE

A NEW insurance benefit for qualified Service people is announced by the Board of Governors of Uniformed Services Benefit Association, a non-profit, tax-exempt association with headquarters in Kansas City, Mo.

Under the new ruling, separation from Service no longer cancels coverage. Without additional cost, members under the U.S.B.A. program will be able to keep insurance in effect after separation or retirement from active duty through age 65. To be eligible for the extended coverage, the insured must become a member while on active duty.

Association officials said that a member is not required to make up his mind immediately. Conversion to permanent insurance may be made at any time after separation from Service.

The Association has a Board of Governors and Advisor group composed largely of officers on active duty.

Lt. Col. Robert H. Gray, USMC-Ret., was appointed to fill the unexpired term of Brig. Gen. Charles O. Thresher, USA-Ret. Other members of the Board are Maj. Gen. John D. Stevenson, USAF; Maj. Gen. Derrill M. Daniel, USA; Capt. R. Waldo Holt, USN-Ret.; Maj. Gen. Charles D. W. Canham, USA; Med. Dir. Lewis H. Hoyle, USPHS; and Herbert M. Swarthout, Executive Secretary.

Newly appointed to the Advisory group were Brig. Gen. Wm. A. Cunningham, III, USA; Sgt. Maj. Louis S. Beasley, USA; M/Sgt. Dorsey C. Bohannon, USA; T/Sgt. Charles M. Howard, USAF, and T/Sgt. Hilton W. Panciera, USAF. Other Advisors are RAdm. Leroy V. Honsinger, USN; Brig. Gen. R. W. Hayward, USMC-Ret.; Col. Jones E. Bolt, USAF; Col. Edward Chalgren, Jr., USA; Capt. Francis R. Drake, USN; Lt. Col. James Harvey Short, USA, and RDCS. Lewis R. Christopher, USCG.

The Mutual Benefit Life Insurance Company of Newark, N. J., established in 1845, is the underwriting company.

U. S. B. A.'s group insurance is available to Officers, N. C. O.'s and Specialists, pay grade E-4 and up, in all of the Uninformed Services and Cadets in U. S. Military Academy, U. S. Coast Guard Academy, U. S. Air Force Academy and Midshipmen in U. S. Naval Academy.

Examples of rates, exclusive of premium refunds from dividends, are: Cadets and Midshipmen—\$10,000 for \$250 per month. All others under 31, \$15,000 at \$4 per month; 31 through 35, \$13,500 at \$5 per month. These examples reflect non-flying status rates; those on flight status may have equal protection at a flat rate of \$10.00 per month.

Dependents also are included in the service-personnel-only program. It includes the wife or husband and all children below age 19. Regardless of the number of dependents, the monthly premium remains at \$1.75 per month. The spouse is covered in the amount of \$2,000, children, \$1,000 each, per schedule.

Association spokesmen report that 1959 saw "a growth picture in excess of expectations." With the new retention feature, membership is expected to "increase materially," it was stated.

The Association has available a revised free booklet, "What the Uniformed Services Benefit Association Means to You," which includes information on the new retention benefits.

A copy or copies (multiple units packed in a small display box are available) can be obtained by writing Uniformed Services Benefit Association, Suite 1026, 101 west 11th Street, Kansas City 5, Mo.

## Little John Units Set For 4th Army

The Army will activate the first Little John surface-to-surface missile battalion Units at Ft. Sill, Okla., the First Missile Battalion, 18th Artillery, and the First Missile Battalion, 57th Artillery. They will be assigned to the Fourth Army, with headquarters at San Antonio.

Each battalion will have four Little John launchers, and will be authorized 192 enlisted men and four warrant officers. The 18th Artillery unit is authorized 16 officers while the 57th Artillery unit is authorized 17 officers.

The guidance system for Little John is simple and reliable and uses a solid propellant rocket engine. Range is comparable with medium and heavy artillery and packs explosive power greater than heavy artillery.

The weapon, weighing approximately 800 pounds, is produced by Consolidated Western Steel, Los Angeles; Emerson Electric Company, St. Louis; Hercules Powder Company, Radford, and Army Ordnance.

## Two Retire At Kelly

Two San Antonio Air Materiel Area officers at Kelly AFB, Tex., have retired.

Lt. Col. Robert F. Brooks, Special Assistant to the Director of Supply and Transportation, retired in the grade of colonel after 20 years' service.

Capt. H. B. Lane, a SAAMA supply officer, ended his Air Force career after more than 22 years of active duty time.

Both Colonel Brooks, a native of Tucumcari, N. M., and Captain Lane, originally from Calais, Maine, will make their home in San Antonio.

## 'Gold Dollar Widow' Reversal Hopes Up

From first page—

impact this order will have on Service morale. They are hopeful that an announcement will be made shortly after 20 January, either by President Kennedy or Secretary McNamara to the effect that the order will be revised or repealed entirely.

If this action comes quickly, Service Commanders say, it will still be possible to prevent the resignation and early retirement of hundreds of commissioned and non-commissioned officers. On the other hand, if there is no immediate indication of a change in policy by the Kennedy Administration, many Service people now anticipating overseas orders will decide that they should leave the Service rather than penalize their families.

Another important factor that will be considered by President Kennedy and Secretary McNamara after the Inauguration is the disclosure by outgoing Secretary of Defense Gates (THE JOURNAL, 7 January) that the "Gold Dollar Widow" directive will mean an increase in military spending because of increased transportation costs. Mr. Gates made this disclosure in a letter to Chairman Vinson. It was in response to a communication from the veteran legislator which expressed great concern over the adverse impact the family order would have on career Service people.

Unofficially, it is estimated that this increased cost will be in the millions of dollars.

## QM Will Expand Career Program

The Army Quartermaster Corps will expand its program to qualified non-commissioned officers continuing responsible assignments in key supply positions both in the United States and overseas areas.

Known officially as the Quartermaster Noncommissioned Officer Career Development Program, the plan began operation in 1955 with 98 participants. By 1960, program membership had grown to 250. This number will be increased to approximately 600 members in the near future.

A QM announcement noted that "because of the outstanding success of The Quartermaster Corps program, it has been used as a guide for the development of similar programs in each of the other Technical Services."

The career program originated following a QM decision to form a cadre of highly trained noncoms who could be assigned to depots, supply control centers, and supply points on a world-wide basis in the event of mobilization.

Program management is exercised by the Office of The Quartermaster General with close coordination of assignments with The Adjutant General's Office.

Individual performance is monitored on an annual basis by OQMG. Each NCO is rated by his commanding officer who uses standards similar to those for commissioned officers.

The typical NCO receives successive assignments planned to develop his skills by having him assume responsibility for accomplishing difficult jobs as various supply echelon levels. By rotating between key positions in the U. S. and overseas, he is able to use his experience in both supply areas to the best advantage both to the Army and to himself.

Noncommissioned officers may apply through command channels to the Office of The Quartermaster General for participation in the program if they have the right MOS and can meet other requirements.

The following MOS's are presently included in the program: 466 (Light Equipment Specialist), 467 (Heavy Equipment Specialist), 551 (Warehouseman, General Supplies), 553 (Warehousemen, Subsistence), 764 (Quartermaster Supply Specialist) and 774 (Parts Supply Specialist).

Additionally, applicants must be less than 45 years old, be of good moral character, and be recommended by a Quartermaster Officer of field grade or higher.

## INFANTRY CENTER Cofs

Col. Kenneth G. Pavey has succeeded Col. Robert G. Sherrard, Jr., as Infantry Center Cofs at Ft. Benning, Ga.

Colonel Sherrard will be reassigned to the Caribbean Command at Quarry Heights, C. Z., effective 5 February. Colonel Pavey has been assigned at Ft. Benning since April 1959 as G-3.

Colonel and Mrs. Pavey, the former Eleanor Compton of Lincoln, Neb., reside at 508 Wickerham Ave., Ft. Benning.

## Chemical Corps Cols. Get New Duties

Two senior Chemical Corps officers are departing Ft. McClellan, Ala., home of the Chemical Corps Training Command.

Col. Donald D. Limoncelli becomes Staff Chemical Officer for the Military District of Washington. He has been Deputy Commander of the U. S. Army Chemical Corps Field Requirements Agency.

Col. George E. Danald, former Chief of the Technical Division at the Chemical Corps School, has departed for the Chemical Corps Board, Army Chemical Center, Md.

Army Navy Air Force Journal  
14 Jan. 1961 (Vol. 98, P. 545) 23

## One-Man Tank Killer

THIS is the Army's newest light anti-tank weapon, rocket grenade, which is fired from its own disposable packing container. The XM72 Rocket Grenade, which can be carried and fired by one man, designed for use against tanks, armored vehicles, concrete bunkers, earth-filled log emplacements, and sand bag fortifications.

The four and one-half pound XM72 is carried over the shoulder in throw-away case that serves as the launcher. Each grenade is fitted with a canvas sling to permit shoulder carrying. If desired, four rounds can be carried in a canvas pack slung over the shoulder like a quiver of arrows.

The carrying case is 25 inches long and 3 inches in diameter. A telescopic aluminum inner section is extended prior to firing. The outer section is made of a fiber glass plastic composition. The weapon can be fired from standing, kneeling, or prone position.

A solid fuel motor furnishes propulsion and burns out before the rocket leaves the tube. When the rocket emerges, several narrow magnesium fins, folded against the motor case when packed in the tube, spring into position and stabilize the rocket in flight.

Aiming is accomplished by a rear peep sight and a graduated sight imprinted on a clear plastic rectangle at the mouth of the launcher tube. The firing mechanism is mounted on top of the launcher tube.

The warhead uses a powerful new Army Ordnance-developed explosive known as OCTOL. Teamed with the 90 mm Recoiless Rifle, the new rocket grenade will satisfy the Infantry soldier's need for protection against enemy tank attacks, an Army announcement said.

The Hesse-Eastern Division, Flightex Fabrics, Inc., Everett, Massachusetts, is the prime systems contractor, with the Army Ordnance Missile Command, Huntsville, Ala., the agency responsible for the overall development program.

## Bell Tests New Light Navy Copter

First of a new generation of turbine-powered light helicopters is in flight test for the Navy at Bell Helicopter Company, Fort Worth.

The four-place utility model helicopter is powered by the first Allison T-63 (250-C2) engine delivered. Weighing only 128 lbs., the turbine engine is rated at 250 shp at 6,022 rpm.

Bell officials said two of the helicopters are being developed and tested under a Navy contract received last year. The ships, designated Navy HUL-1M, are basically Navy HUL-1/Bell Model 47J Ranger helicopters modified to accommodate the T-63 power plant.

Engineers report the helicopter will have a service ceiling of 18,000 ft.; hovering ceiling of 13,900 ft. (IGE); and hovering ceiling of 9,400 ft. (OGE). Maximum speed of the ship will be approximately 105 mph.

Empty weight of the HUL-1M is 1,350 lbs.; maximum gross weight is 2,850 lbs.; and useful load is 1,500 lbs.

HILTON—Died Madigan GH, Tacoma, Wash 2 Jan after a long illness. Mrs Irmagardde Eldredge Hilton, 64, widow of Col Donald B Hilton, USA-Ret, of cancer. Survived by one daughter, Mrs Henry D Hopper, 339 Prospect St, Ridgewood, NJ; three grandchildren, and one sister, Mrs Leroy S Bogle, 4033—23rd Ave, SW, Seattle 6, Wash.

JACOBS—Died San Antonio, Tex 8 Jan Mrs Bessie Wright Jacobs, widow of Col Lynwood B Jacobs, USAF. Survived by one son, Loxley Jacobs, LaPlata, Md; one daughter, Mrs K J Gregg, San Antonio; four grandchildren; and one great-grandchild. Graveside services Arlington National Cemetery, Washington, DC, Fri, 13 Jan at 10:30 am.

KIRKSEY—Died Madera, Calif 4 Jan Col Guy Kirksey, USAF-Ret, 74, air pioneer, who worked with Gen Billy Mitchell in proving that an airplane could sink a battleship. Survived by his widow, Mrs Florence F Kirksey, Adobe Ranch, Madera; and one sister, Mrs Emer Yeager, New York. Burial Arlington National Cemetery, Washington, DC.

KRAUL—Died San Francisco, Calif 14 Dec Maj George E Kraul, USA-Ret, of a heart attack. Survived by his widow, Mrs Dorothy K Kraul, 95 Rossmoor Dr, San Francisco; one daughter, Mrs Albert N Heber, Jr., Everett, Wash; and two grandsons, Richard & David Hebert. Burial National Cemetery, Presidio of San Francisco.

McLAMB—Died San Francisco, Calif 26 Dec Col Nathan A McLamb, USA-Ret (USMA '27). Survived by his widow, Mrs Margaret McLamb, 840 Lake St, San Francisco; one son, Peter McLamb; and one brother, Mr Peyton F McLamb (USMA '24), Vice President, First National City Bank of New York. Burial National Cemetery, Presidio of San Francisco.

NYE—Died Walter Reed GH, Washington, DC 5 Jan 1st Lt Jack G Ny, 29, of cancer. Survived by his widow, Mrs Caroline C Ny, 315 Waterford Rd, Silver Spring, Md; three children, Brad, 7, Timothy, 4 & Cathy Jo Ny, 2; and his parents, Mr & Mrs Frank Hollar, RD 1, Shippensburg, Pa. Burial Shippensburg.

TISDALE—Died at his home at Niagara Falls, NY 19 Dec Mr Marquis L Tisdale, father of Col Walter M Tisdale, USA, Commanding Officer, Watervliet Arsenal, NY. Also survived by his widow; and two other sons, Messrs John M & William E Tisdale. Burial Fonthill Cemetery, Niagara Falls.

## M/G Mayfield Tops New PL 810 List

The Army has placed Maj. Gen. Thomas M. Mayfield and the following National Guard and Reserve officers on the retired list upon their attainment of age 60 and completion of at least 20 years creditable service as provided under Title III, PL 810, 80th Congress:

### COLONEL

Howell, Eugene J Potter, M O, NG  
Robertson, D A Finkle, John R  
Smith, Ernest M Dyson, Richard  
Peek, Nohea O A Stadtler, G J, Jr  
Stogsdill, James E Berardi, James B  
Icks, Robert J Caplinger, H S  
Herndon, Hunter V Claus, Everett C  
Rice, Orville W Layton, Eugene B

### LIEUTENANT COLONEL

Colloward, Thomas M Zachau, Ernest  
Rapp, Oliver L Leland, Walter I  
De Lee, Marine Roseman, Frank E  
Sheely, Charles W Hartness, R W, ChC  
Powell, Robert I Lewis, Ferrell J  
Stephens, Richard F Carlisle, John T  
Hollis, Laurence C Beauchamp, S J  
Dietz, Nicholas, Jr Jacobson, Abraham  
Ager, C L J, Jr Harrison, Lucien E  
Norton, Michael E Trau, William L  
Dressor, Wilfred D

### MAJOR

Quallins, George A Graves, Robert E  
Mather, Millard L Neill, Jeremiah F  
McConnell, Louis F

### CAPTAIN

Hodson, Theodore L Hershey, Charles E  
1ST LIEUTENANT  
Borrego, Alberto M

### CHIEF WARRANT OFFICER

Parkin, Henry E  
The following named enlisted men are also retired under this law: Wemple, M/Sgt Eugene F, NG; Newman, 1st Sgt Walter W. NG and Warren, 1st Sgt George W. NG.

### Sergeant Contract To Gulton

Gulton Industries, Inc., Metuchen, N. J., received a \$435,000 contract to supply Analog to Digital Converter systems for use in the Sergeant Missile Program. The electronic data acquisition equipment is being engineered by Gulton's CG Electronics in Albuquerque. The Converters will be used for measuring guidance and flight stability.

## WARRANT PLANS ALSO:

## Marines Tell LDO New Rules For FY '61

Eligibility requirements for the FY '61 Limited Duty Officer Program and Phase II of the FY '61 Warrant Officer Program announced today by Headquarters Marine Corps.

The programs, outlined in Marine Corps Order 1040.17, set forth the following eligibility requirements for:

### LIMITED DUTY OFFICER

(1) Be a temporary commissioned officer, temporary or permanent warrant officer, or a male enlisted person in pay grade E-6 or above of the regular Marine Corps.

(2) Possess a minimum GCT score of 110.

(3) Be less than 43 years of age on July 1, 1960.

(4) Have had at least 10 but less than 12 years of active Naval service on July 1, 1960.

### REGULAR WARRANT OFFICER (male)

(1) Be a temporary commissioned or warrant officer or a regular enlisted man serving in pay grade E-6 or above.

(2) Possess a minimum GCT score of 110.

(3) Be less than 46 years of age on July 1, 1960.

(4) Have less than 19½ years of active Naval service on July 1, 1960.

### REGULAR WARRANT OFFICER (female)

(1) Be a female enlisted person serving in pay grade E-4 or above in the regular Marine Corps.

(2) Possess a minimum GCT score of 110.

(3) Be less than 46 years of age on July 1, 1960.

(4) Have at least six but less than 19½ years active Naval service on July 1, 1960.

### RESERVE WARRANT OFFICERS

(1) Be a male or female enlisted person in pay grade E-6 or above who is serving with an Organized Marine Corps Reserve unit or who is on extended active duty with the regular or reserve establishment.

(2) Possess a minimum GCT score of 110.

(3) Be less than 46 years of age on July 1, 1960.

(4) Have less than 19½ years creditable service for retirement purposes on July 1, 1960.

All eligible personnel may submit applications to the Commandant of the Marine Corps via their commanding officer. In addition, commanding officers may nominate personnel qualified for appointment but who otherwise have not applied.

Applicants will, if possible, appear before a local interview board composed of, if feasible, five officers including three field grade officers.

Applications must reach Headquarters Marine Corps not later than 15 February 1961.

A board, expected to convene 27 March, will be authorized to select approximately 30 Limited Duty Officers and 108 Warrant Officers.

## Tests Ahead For Boeing Jet Boat

WITHIN the next month, Boeing will begin tests of high-speed watercraft shapes on Seattle's Lake Washington, using a jet-propelled boat. A floating test laboratory, the boat was designed to provide a level and stable platform for straightaway runs up to 100 knots. Thirty-eight feet long with a 17-foot beam, the boat is shaped like a two-pronged fork. The two forward hulls from the fork prongs with the engine mounted in the fork "handle." Hydrodynamic models of hydrofoils and advanced marine vehicle designs will be suspended between the two forward hulls and pushed through the water at

high speeds.

Walter Wiberg, Project Engineer, said the Boeing planing platform is the first testing laboratory of its type. Ordinarily hydrometric shape tests are made by towing the models at high speeds in a water tank.

"The boat is to supplement the tow tank method," Mrs. Wiberg said, "and will provide an extension of this technique. Just as a windtunnel gives us more information about aircraft designs, the test boat will give us more information about watercraft designs. Hydrofoils and several other surface and subsurface hull forms will be tested."

## HONEYWELL AWARDED DYNASOAR TASK

MINNEAPOLIS-HONEYWELL Regulator Company has received a contract for more than \$2 million for work on the Air Force's Dynasoor manned space glider from Boeing Airplane Company covering design, development and production of flight control electronics. The work is to be done at Honeywell's Aeronautical Division in Minneapolis.

In December, Honeywell's Aeronautical Division facility in St. Petersburg, Fla., was selected by the Air Force as an associate prime contractor on the Dynasoor program to develop an inertial guidance system for the space glider. That contract, awarded by the Air Force Aeronautical Systems Center, Dayton, Ohio, amounted to \$2.7 million for the first six months effort.

Award of the second contract to Honeywell means that the company will develop both the automatic space navigation system and the flight control system which will "fly" the glider either automatically or in response to pilot commands. The inertial navigator will function in much the same manner as a missile guidance system. The flight control system will operate similarly to an autopilot for a hypersonic aircraft.

## Senator Kerr Will Head Space Committee; Senator Byrd Joins Armed Services Group

SENATE Committees which will guide military programs in the 87th Congress have three new Democratic members.

They are Senators Robert C. Byrd (W Va), Hubert Humphrey (Minn) and Spessard Holland (Fla), who have been assigned to Armed Services, Appropriations and Aeronautical and Space Sciences, respectively. All three of the new Committee members fill vacancies created by the resignation of Senator Lyndon B. Johnson (Tex), the Vice-President-elect.

Senator Robert S. Kerr (Okla) was named Chairman of the Aeronautical and Space Sciences Committee. This was forecast in THE JOURNAL (19 November).

Senator John C. Stennis (Miss) moved into the third-ranking majority seat on the Armed Services Committee, and is expected to succeed Senator John-

son as Chairman of that group's Preparedness Investigating Subcommittee.

Senator Byrd, the new Armed Services Committee member, has served in the Senate since 1959 and prior to that was a member of the House of Representatives for six years. He will be 43 on 15 January.

Senator Humphrey, who has completed 12 years in the Senate, is 49. Before coming to Washington he was mayor of the city of Minneapolis.

Senator Robert S. Kerr (Okla) was named Chairman of the Aeronautical and Space Sciences Committee. This was forecast in THE JOURNAL (19 November).

Senator John C. Stennis (Miss)

moved into the third-ranking majority seat on the Armed Services Committee, and is expected to succeed Senator John-

New Republican Committee members had not yet been named as THE JOURNAL went to press.

## Marines Are Extended On Active Duty

The following Marine officers have received orders to extended active duty through the dates indicated:

### CAPTAIN

Anderson, Donald L, 1 Jul 63-30 Jun 64;  
Allen, Lewis J, 1 Mar 61-30 Jun 65; Douglass, Wilford D, Harper, Harvey M, Jr., and Pope, Clarence A, 1 Jul 61-30 Jun 62; Dyer, Russell E, 1 Jun 61-31 May 63; Fischer, John J, Jr, 21 Jun 61-20 Jun 64; O'Neill, Robert E, 1 Jul 61-30 Jun 64; Woody, Larry D, 1 Jul 61-30 Jun 65; Wright, Marshall O, 1 Jan 61-30 Jun 64.

### FIRST LIEUTENANT

Duke, Hyatt A, 1 Jun 61-31 May 63; Farley, John F, and Hamor, Richard M, 1 Jan 62-

30 Jun 63; Johnson, Ralph K, 1 May 61-31 Aug 62; Kinney, Richard D, 1 Jan 61-31 Dec 63; Lang, Robert F, 1 Jan 61-31 Dec 61; Schober, Frederick J, 1 Sep 61-31 Aug 64; Alderson, Terence C, and Alston, Alexander A, Jr, Sep 61; Floyd, Billy M, Fugate, Ray A, and Marshall, Lee, Mar 62; Brandweile, George C, Feb 61; Burns, Rex S, Sep 61; Leavitt, Jonathan B, Sep 61; Gardner, Robert F, Kirkland, Thomas V, and Reynolds, James C, Dec 61; Cagle, Delmar S, Oct 62; Smith, Thomas H, Aug 61; Mays, Shirley L, Sep 61; Haffner, Harold G, Aug 61.

### SECOND LIEUTENANT

Smith, Frank T, Dec 62; Phillips, Daniel M, Sep 62.

## Names In News

**General Emmett O'Donnell, USAF**, Pacific Air Forces CinC at Hickam AFB, Hawaii, during a recent visit to Taiwan was presented Chinese Air Force Wings by **General Chen Chia-shang**, CAF CinC. General O'Donnell was making his eighth visit to the island bastion since assuming command of PACAF 16 months ago. Previously he was similarly honored by the Royal Thai Air Force.

**Capt. Harry R. Canaday, USNR**, a USNA '30 graduate, Pan-American Airways Atlantic Division Superintendent of Training, will succeed retiring **RAdm. David S. Ingalls, USNR**, as a member of the Reserve Forces Policy Board. Captain Canaday, who resides at 1651 Jane Street, Wantagh, Long Island, N. Y., will serve on the Board with 20 other Reserve Forces officers under **Chairman John Slezak**, former Under Secretary of the Army. **Maj. Gen. Ralph A. Palladino, USAR**, is Military Executive.

**Lt. Gen. Joe W. Kelly, USAF**, Commander of MATS at Scott AFB, Ill., has been awarded the Guided Missile insignia in recognition of his service as Commander of the Air Proving Ground Center, Eglin AFB, Fla., from July 1958 to June 1960. A subcommand of the Air Research Development Command, the center is involved in operational testing of missiles and rockets. Missiles tested under Gen. Kelly's command included the Bomarc A and B, the Hound Dog (GAM 77), the Quail (GAM 72) and aerospace probe rockets.

**Cadet First Class Donald A. Feldman** has been named Regimental Commander of the Corps of Cadets at the U. S. Coast Guard Academy, it is announced by **RAdm. Stephen H. Evans**, Superintendent. One of Cadet Feldman's first functions as regimental commander will be to lead the 600-man Corps of Cadets during the Presidential Inaugural Parade 20 January. Second in command is **Cadet First Class David A. Sandell**, regimental executive officer.

**Maj. Robert L. Bierly**, Director of the internationally-famous Army Field Band at Ft. Meade, Md. has just been promoted to that rank. He and Mrs. Bierly, and their young son, Drew, live at 108 Sheppard St., Silver Spring, Md.

**Brig. Gen. Elmer J. Gibson**, Eighth Army Assistant G-4 departs Korea 15 January to become CG of the Army Ordnance Weapons Command, Rock Island Arsenal, Ill. He will be succeeded by **Brig. Gen. Oren E. Hurlbut** in a switch of assignments.

**Col. William R. Nevitt, USAF**, Deputy Commander of TAC's Nineteenth Air Force, is Test Director of Project "Talking Bird" in which an airborne command post/communications center mounted in a specially configured C-97E test aircraft, is making a 45-day round-the-world test and evaluation flight. A Pentagon announcement said "the Air Force expects the evaluation to lead to improved aircraft control in providing emergency airlift support into remote areas with poor communications facilities as the Chilean earthquake area and the Congo. MATS and AMC are joining with TAX in "Talking Bird."

**Col. Murray A. Bywater, USAF**, has been appointed Site Activation Task Force Commander for the Air Force Titan II Ballistic Missile Site at McConnell AFB, Wichita, Kans., it is announced by **Maj. Gen. Thomas P. Gerrity, USAF**, Commander of AMC's Ballistic Missiles Center at Inglewood, Calif.

## JOURNAL CLASSIFIED

For only 14 cents a word (\$1.40) minimum, you can reach a worldwide audience through the classified advertising columns of the "Spokesman of the Services."

The Journal is the only weekly publication which covers all the U. S. Armed Forces. This assures top caliber impact for your message.

Deadline for insertions is 5 p.m. on Tuesday. Payment must accompany insertions. Write: Army Navy Air Force Journal, 1710 Connecticut Avenue, Washington 9, D. C., in the Capital area, phone: HObart 2-1220 and ask for Mrs. Howard.

### REAL ESTATE FOR SALE OR RENT

#### Arizona

PLANNING RETIREMENT? Why not consider the delightful climate, better home buys and unlimited business opportunities afforded by the Phoenix area. Call or write Leon Graves, Major USA Retired. ED POST REALTY, Arizona's leading Real Estate Organization, 5060 No. Central Ave., Phoenix, Arizona.

#### California

MONTEREY, CALIFORNIA — Fort Ord, Army Language School, Navy Postgraduate School. For free maps, brochures, information on rentals, price ranges of homes to purchase, down payments required, expected monthly payments, etc., write Colonel Ed Taylor (Ret) Tri-City Real Estate, Washington at Pearl, Monterey, California. Three offices serving the Monterey Peninsula.

#### Florida

GAINESVILLE, HOME OF UNIVERSITY OF FLORIDA. Two homes. Choicest large lots on popular lake in area largely settled by retired service officers. \$20,000 and \$40,000. Write or phone Col. GEO. S. PRICE, Retired, ARNOLD REALTY COMPANY, 1119 W. University Ave.

CLEARWATER—Everything in Real Estate in this most ideal retirement paradise. Write Col. Basil Williams, or Lt. Col. Owen Colaw at BELLEAIR REALTY, 1200 Indian Rocks Road.

RETIREMENT WATERFRONT HOMES Businesses Adjacent Patrick AFB, James Chapman, Realtor, Eau Gallie, Florida.

CLEARWATER, FLORIDA! The Springtime City on the Gulf of Mexico offers the most in climate, recreation and pleasant living to service people considering retirement. Convenient to military facilities. Specializing in Service to Service Families. Write for our brochure. CONDON-MEEK, Inc., Realtor, 1233 Park Street, Clearwater, Associates: Lt. Col. James C. Schaaf (Ret.), and Col. D. C. Cubbison, Jr., Ret.

CLEARWATER — BEAUTIFUL SHADED AND WATERFRONT RETIREMENT HOMES. HOMESITES. Sportsman's Paradise, Tropical Flowers, Government Hospitals, Commissary and PX. Write for Brochure. Col. EDWARD L. HURLBURT, REALTOR, 1152 Cleveland Street, Clearwater.

Orlando-Winter Park, Florida. For the best in retirement homes—see Neill M. Michael, Lt. Col. USAF-Ret., Realtor-Builder, 961 Orange Ave., Winter Park, Fla.

LAKELAND HAS EVERYTHING for the retiring military man. Write LT. COL. R. W. MILLER, (Ret.) REALTOR, Box 1340, LAKELAND, FLORIDA.

BRADENTON—The ideal location for retirement. Nearly 300 retired service families now reside here. Write for brochure. Colonel LITTLETON A. ROBERTS, USA-Ret., Associate, C. H. WOOTEN, Realtor, 538-12th St., W.

LUXURIOUS APARTS. FOR RENT by Season-Month or Year. Efficiencies—1 & 2 Bedroom apartments 1 & 2 Baths. Air-conditioned & Heated-TV. Completely furnished—100 feet from Ocean—Quiet refined section North end of Hollywood Beach. Special Rates—Full Commission paid to brokers. 10% DISCOUNT TO FAMILIES OF SERVICE MEN. WAVES MOTEL & APARTMENTS. 315 Oak St., Hollywood Beach, Fla.

### Virginia (Cont.)

WASHINGTON-VIRGINIA Service to the Service by Service people. Specialists in sales, rentals, financing. Main office 1 block from Presidential Gardens furnished apts. Write for free bulletin covering Alexandria, Arlington, Fairfax County, Northern Virginia. Members of Multiple Listing. Write or phone HICKS REALTY CO., Inc., Realtors, Open 9 to 9, KING 9-1600, OT 4-6040, 3706 Mt. Vernon Ave., Alexandria, Va. 2303 S. Arlington Ridge Rd., Arlington, Va.

WASHINGTON BOUND? Let our experienced service personnel locate your home in Virginia where taxes are lower and schools are better. Temporary rentals with everything furnished by the week or month, while we help you find your permanent home. HOLLEY REALTY, 5183 Lee Highway, Arlington, Virginia. KE 8-5350. Across from Tops Drive-In.

MERLE NELSON the firm with interest in and understanding of service families housing requirements. Staffed by efficient and experienced sales people. Free sales and rental brochures and area maps. MERLE NELSON REALTY, 5150 Wilson Blvd., Arlington, Jackson 4-5866.

HOUSING CENTER FOR THE SERVICE. Detailed information. Send for our free Sales and Rental Bulletin. Interior and exterior "photorama" on available homes upon request. GI, FHA and CONVENTIONAL funds for mortgage loans. A complete "home finding" service including excellent rentals. We are members of Multiple Listing Service and have for 10 years served the military in Alexandria, Arlington, Fairfax County, McLean and Springfield. Write or phone: KI 8-4000 or FL 4-2500. ROUTH ROBBINS REAL ESTATE CORP., Alexandria office: 610 Madison Street, Alexandria, Va. Springfield office: 6432 Brandon Avenue, Springfield, Va.

SHANNON & LUCHS COMPANY REALTORS in the greater Washington area have rendered service to military and other government personnel since 1960. With four offices to serve you our Arlington office dealing exclusively in Northern Virginia property is best situated to assist the Pentagon bound personnel. Let our experienced and professional sale staff help you with your housing problem. Call, write or come in to see us at 2055 Wilson Blvd., Arlington, Virginia. Telephone JA 6-5800.

TATUM PROPERTIES, INC., specialize in rentals, sales and financing for military personnel. Our houses are outstanding. Members of Northern Virginia Real Estate Board and Multiple Listing Service. A letter to our office indicating your essential requirements and preferences will bring a prompt and informative reply. Address: 903 Leesburg Pike, Falls Church, Virginia or call Major Tatum (Ret.) HU 1-9222.

TOWN OR COUNTRY? Best Virginia locations! City or country minded, "Town & Country" has the finest coverage of houses in beautiful Northern Virginia. FHA, VA, In-Service, GI, Conventional Financing. Assisting service personnel is our specialty.  $\frac{1}{2}$  block from Presidential Gardens. Upon your arrival, our office car is at your disposal. Write, wire or call Temple 6-1415 or KE 6-6900. Collect. TOWN & COUNTRY REALTY, 3806 Mt. Vernon Avenue, Alexandria, Virginia. 5165 Lee Highway, Arlington, Virginia..

### AUTOMOBILES

NEW CHRYSLERS, PLYMOUTHS and VALIANTS at lowest delivered price. No State Sales Tax. Full warranty and service. Authorized dealer. Free information, Pearson, Hurstville, N. J.

### BUSINESS OPPORTUNITIES

Want to live in Florida? Major equity available in two small businesses, offering active participation in management. Locations: Jacksonville, Perry. Approximately \$13,000.00 each required. Contact: Charles A. Hardwick & Co., 764 May Street, Jacksonville, Florida.

BUSINESS OF YOUR OWN—Retiring Military a National Company has franchises available for the man with executive ability. This new concept in business data service has high profit potential. We process all your clients' reports on our I.E.M. Electronic Equipment. Write, Van Loon Bros., Inc., Dept. A, 2599 South Lincoln Street, Denver 10, Colorado.

### MILITARY CAPS

MORRY LUXENBERG offers FREE "CAP-TOTER," (handsome case for carrying two Caps plus accessories) with purchase of Army officer's Blue Fur Felt, Gold, Dress Cap \$26.50. Field grade \$35.50. (Write for price list other items.) Morry Luxenberg Co., 45 East 30th St., New York City 16.

### NEW FURNITURE

Your best buy in the Washington, D. C. area in better grade new furniture. Save at least 30% plus more. Shop them all—but compare our prices before you buy. BROTHERS FURNITURE COMPANY, Bailey's Cross Roads, Alexandria, Virginia. HU 1-2566.

## Naval Aviation's Golden Year Will Take Off With Gala Ball

YEAR-LONG celebrations in honor of the 50th anniversary of naval aviation will begin with a formal ball at Washington's Sheraton Park Hotel 25 January. The theme, according to Admiral James S. Russell, Vice CNO, and Chairman of the ball committee, will be "The Golden Year of the Golden Wings."

Highlights of the evening will include selections by the Marine Drum and Bugle Corps and a film salute to naval aviation. Also featured in the floor show will be the Navy Steel Drum Band and the Navigator cadet choir from Pensacola, Fla.

The Navy Band will play dinner music. Dance music will be provided by Les Elgart and his orchestra.

A specially designed silver trophy, the "Grey Eagle Trophy," will be presented to Admiral Charles R. "Cat" Brown, CinC, Allied Forces, Southern Europe, the senior naval aviator on active duty. Designation of the senior naval aviator is based on the designation of the individual concerned as a naval aviator. Admiral Brown received his wings on 15 August 1924.

The "Grey Eagle Trophy" will be a revolving award, presented annually to the senior naval aviator. Small replicas of the trophy will be presented at the ball to seven former naval aviators who were at one time the senior naval aviators on active duty.

Sub-committee chairmen are: VAdm. Robert B. Pirie, Deputy CNO (Air); Brig. Gen. Arthur F. Binney, Director of Marine Aviation Division; RAdm. P. P. Blackburn, Jr., OCNO; RAdm. Roy L. Johnson, OCNO; RAdm. Dan F. Smith, OCNO; RAdm. Charles T. Booth, Bureau of Weapons; RAdm. Almon E. Loomis, Bureau of Personnel, and RAdm. Tom F. Connolly, Bureau of Weapons.

## Retired Notes In The Services

**Col. Paul H. Dane, USAF-Ret.**, 49, who had been Professor of Thermodynamics at the U. S. Air Force Academy, recipient of a Bachelor of Science Degree from the California Institute of Technology in 1934 and a Degree in Aeronautical Engineering from the same institution in 1941, and National Vice President of the Institute of Aeronautical Sciences, will reside with Mrs. Dane, the former Jean Allen of Pasadena, at 749 Monaco Parkway, Denver. Colonel Dane will be associated with Frank R. Cook of Denver in a new investment firm, Applied Sciences Capital Corp. The Danes have three children. A daughter, Julia, is the wife of an Air Force Academy graduate of the Class of 1960, Lt. Miles Kaspar, stationed at Reese AFB, Lubbock, Tex. Twins, Patricia and Paul, 17, will attend high school in Denver.

**Col. Hall King, USAF-Ret.**, twice commanding officer of Indiana University's Air Force ROTC unit, has begun new duties on the Bloomington campus as Assistant to the Dean of Students and Director of Veterans Affairs. He served as professor of air science at I.U. from 1951 to 1955, organizing the unit in its present form, and returned to the Hoosier campus in 1958 after a tour in Newfoundland.

**Col. James D. Sams, USAF-Ret.**, former Chief of the Atlantic Missile Range Army Field Office at Cape Canaveral, Fla., received the Army Commendation Medal in ceremonies at the Redstone Arsenal, Ala., headquarters of the Army Ordnance Missile Command. During his tenure at Canaveral, Colonel Sams was also Director of Army Test on the staff of the Air Force Missile Test Center.

**Lt. Col. Joseph S. Ryan, USAF-Ret.**, Deputy Chief, Combat Development Branch, R&D Division, has received the seventh service award in seven years service with the Office of the Chief Signal Officer. The Meritorious Civilian Award was presented by Brig. Gen. John C. Monahan, Chief, R&D Division. A supervisory electronic engineer, Colonel Ryan requires the permanent use of a wheel chair to perform his duties, due to poliomyelitis contracted while he was on foreign duty as an Army officer. Colonel Ryan, his wife, Eva Ward Ryan, and their two children, John, 7, and Deborah, 8, live at 5723 Johnson Avenue, Bethesda, Md.

**Lt. Col. John C. Murphy, USAF-Ret.**, former Chief, Security Operations Branch of the Defense Atomic Support Agency, who resides at 623 Ripley Street, Alexandria, Va., with his wife, the former Marie Bryn of White Stone, Long Island, N. Y., and their two children, Barbara Jane, 16; and Patricia Lee, 8,

plans to enter the Public Relations field in the Washington area.

**Lt. Col. Harry T. Shiveley, USAF-Ret.**, formerly Aviation Staff Officer in the Combat Developments Section of US-CONARC at Ft. Monroe, Va., will live at 216 Thomas Nelson Lane in Williamsburg, Va., with his wife, Donna, and children, Diane and Carol.

**Lt. Col. John O. Kelder, USAF-Ret.**, formerly with First Army, Governors Island, N. Y., resides at 214 Spout Spring Avenue, Mt. Holly, N. J., with his wife, the former Eleanor Caroline LeCompte of Olean, N. Y. They have two sons, Michael, 17, a student at Rutgers University and Timothy, 21, who is attending the U.S. Merchant Marine Academy at Kings Point, N. Y.

**Maj. Isabella M. Henry, USAF-Ret.**, has become the first member of the WAC to retire from active duty at Ft. Monroe, Va. She will make her home in Waco, Tex. She had been Chief of CONARC's Troop Information Division.

## Honeywell V.P. Sees Big R&D Boost

An increase of more than \$1 billion in spending for Armed Forces R & D in 1961 is forecast by Minneapolis-Honeywell Regulator Company. Vice President Stephen F. Keating, Military Products Group Chief. He estimates total defense spending for research development in 1961 at about \$4 billion, with a steady expansion to approximately \$7 billion by 1965.

Mr. Keating attributed a major portion of the expected increase to the complexities of missile and space systems and the scientific challenge they have created for government and industry. He said many new technologies must be developed to satisfy national defense efforts.

The future position of companies in the military electronics field will depend on their ability to attract R & D funding, Mr. Keating said. He cited his own company's experience that approximately three-quarters of its present products in the military field are a direct outgrowth from a research or development program.

In 1961, Mr. Keating estimated, aircraft will account for about \$6.3 billion of the defense budget and missiles and aeronautics about \$4 billion. He predicted that these two categories would about equal one another at approximately \$5.5 billion in 1963.

By 1965 expenditures for missiles should reach nearly \$7 billion, with aircraft dropping to about \$4.5 billion, he stated.

14 Jan. 1961 [Vol. 98, P. 549]

Army Navy Air Force Journal 27

## Coast Guard Orders:

## Coast Guard Boards Will Choose Rear Admirals And Captain Retainees

Secretary of the Treasury—Robert B. Anderson  
Commandant—Vice Adm. Alfred C. Richmond

TWO boards, one to select new rear admirals and the other to consider captains for retention on active duty, meet this month at Coast Guard Headquarters.

Convening 17 January, a Board headed by RAdm. Henry T. Jewell, will consider captains for promotion to rear admiral. Other members of the board are: Rear Admirals Stephen H. Evans, Allen Winbeck, Carl Olsen and Chester L. Hardinge.

Headed by RAdm. Ira E. Eskridge, members of the retention board include Rear Admirals Joseph A. Kerrins, Peter V. Colmar, George H. Miller and Christopher C. Knapp.

## TEMPORARY PROMOTIONS

President Eisenhower has appointed the following personnel to the temporary grades indicated, with rank from 3 December unless otherwise shown:

### TO CAPTAIN

Arst. Frederick K. 22 Dec.

### TO LIEUTENANT (JG)

Kossman, Otto R. Ropiak, F. J. Jr. Reynard, Robert Walsh, Edward A.

## ASSIGNMENT CHANGES

### CAPTAIN

Leising, Charles E. Jr. CGD9 (Ch Mer Mar Safety Div) to CGD8 (Ch Engr Div). McIntosh, James, CGD8 (Ch Engr Div) to CGD9 (Ch Mer Mar Safety Div).

### LIEUTENANT COMMANDER

Taylor, Edward G. MIO, Memphis (Duty) to YAKUTAT (EO).

Collins, Thomas J. Academy (fs) to SOUTH INSP (fs).

Lowry, Richard Q. CGAD, Biloxi (Difot) to CGAD, Annette Isl (Difot) — CAN-CELLED. CGAD, Biloxi (Difot) to CGAD, Kodiak (Difot).

### LIEUTENANT

Nelson, Richard G. MIO, Portland, Ore (duty) to MIO, Duluth (duty).

Perkins, Jack A. CGAS, San Diego (difot) to CGD3 (der).

Albritton, Kenneth D. Depot, Guam (Duty) to Institute (Duty).

Flanders, William M. RCA Institute (Duins) to HQ (EEE).

Johnson, Herbert L. MIO, Philadelphia (Duty) to MIO, Buffalo (Duty).

Ketchel, Robert J. MINNETOLKA (Engr Duty) to USN PG School, Monterey (Duins).

### LIEUTENANT (JG)

Askev, Robert D. ARIADNE (Duty) to MIO, Baltimore (Duty).

Bizzozero, Ernest. CASTLE ROCK (Duty) to COTP, Boston (Duty).

Graham, Kenneth, BIBB (Engr Duty) to MIO, Philadelphia (Duty).

Leftwich, James J. DILIGENCE (XO) to PONTCHARTRAIN (Engr Trng) — CAN-

### ENSIGN

Geletka, Steve W. Jr. CACTUS (Duty) to CGD1.

Koch, Frederick P. Base, Gloucester (Duty) to HOME.

MacDonald, Larry L. MODOC (Duty) to CGD13 (RCC).

Mignon, Joseph J. LAUREL (Duty) to CGD3 (der).

Neff, James E. MADRONA (Duty) to CGD9 (der).

Shytie, Marshall H. ABSECON (Duty) to CGD7 (der).

Campbell, Billie A. AURORA (Duty) to Base, San Juan (RCC).

### WARRANT

Johnson, W-2 Ray E. Base, Seattle to WAL-604 (CO).

Butler, W-2 James E. COTP, Seattle to CGD13.

Kargas, W-2 Wayne, MARIPOSA to WOOD-RUSH.

Jakelsky, W-3 Frank, Base, St Louis to Pearson Corp (Res Insp).

Price, W-2 William M. Jr. Kooring, New London to MARIPOSA (EO).

Flees, W-2 Stephen J. CGAS, Brooklyn to SEBAGO—CANCELLED.

Bagley, W-1 Robert E. WAL-604 (OinC) to RTC, Yorktown (TEMINS/OCS).

McDowell, W-1 Louis R. MALLOW to RTC, Yorktown (TEMINS/OCS).

Barkell, W-1 Howard W. DEXTER to RTC, Yorktown (TEMINS/OCS).

Bowley, W-1 Robert E. PHILSEC to Tra Sta, Groton.

Degrav, W-1 Leo J. CGAD, Kodiak to RTC, Yorktown (TEMINS/OCS).

Martin, W-1 Joseph H. REGEN, Cape May to RTC, Yorktown (TEMINS/OCS).

Clayton, W-1 Roy E. Supply Depot, Portsmouth to RTC, Yorktown (TEMINS/OCS).

## Former JAG Chief Honored In Korea

A dinner party was held last month at the Hartell House Annex of the Commanding General's Mess, Eighth Army, in honor of Maj. Gen. George W. Hickman, Jr., who retired 31 December as Army Judge Advocate General.

Among the guests were General Carter B. Magruder, CinC U. N. Command, U. S. Forces, Korea, and Eighth Army, and Mrs. Magruder; Maj. General M. S. Carter, Eighth Army CoS; Maj. Gen. KIM, Wan Yong, former Judge Advocate General of the ROK Army; Col. KIM, Tae Chung, The Judge Advocate General of the ROK Army; and Col. KO, Suk Tai, Deputy Judge Advocate General of the ROK Army, Lt. Col. Arthur J. Sullivan, Staff Judge Advocate, 314th Air Division, Osan AB, and Judge Advocate officers from all over Korea, as well as civilian attorneys in Judge Advocate sections.

Col. Lauren A. Arn, Staff Judge Advocate, U. N. Command, U. S. Forces, Korea, and Eighth Army, was toastmaster.

## AF Talent Contest Set

Andrews AFB, Md., will be host base for the finals of the 1961 Air Force Talent Contest, 5-9 June 1961.

## AF Shifts Missile Management People

An advanced echelon of 126 personnel positions has been transferred from Los Angeles to Norton AFB, Calif., as the first step in the plan to concentrate the site activation management function and other non-development activities of the Air Force ballistic missile program in the San Bernardino area.

By 30 June, the Air Force plans to transfer approximately 700 more personnel positions from Los Angeles to Norton.

The AMC Ballistic Missile Center will move from Los Angeles to Norton during the course of this consolidation of site activation and procurement functions.

The ARDC Ballistic Missile Division, responsible for management of development work on missile and space programs, will remain in Los Angeles.

## INDUSTRY IN DEFENSE

### Boeing B-52H With Douglas Skybolt Test Models Unveiled; Has Emerson Gatling

An Air Force B-52H equipped with test models of the Skybolt missile has been unveiled at Boeing Airplane Company's Wichita plant. The bomber had two test models of the air launched ballistic missile tucked under each wing.

The eight-jet B-52H was moved out of a hangar in preparation for compatibility tests with the pylon-mounted Skybolts. When it becomes operational several years from now, the solid fuel Douglas Skybolt can be launched from the B-52H as far as 1000 miles from multiple targets. Once launched from the aircraft, Skybolt will follow a ballistic path to its target at hypersonic speeds.

Representatives of the Skybolt Weapon System Program Office at Wright Air Development Division, Dayton, have planned powered and guided launches over the Atlantic Missile Range during the next few years before the air-launched ballistic missile, mated to the B-52H, becomes operational.

A Pentagon announcement said: "The Stratofortress H model is regarded as the climax of the B-52's long line of technological growth and is designed for peak front-line deterrent effectiveness for years to come."

Differences in the H and its predecessor, the B-52G, are the big 17,000-pound-thrust Pratt and Whitney turbofan engines, its ability to carry four Skybolt missiles, and a new Emerson ASG-21 Gatling gun armament system. Its extended range capability will provide an increase over the 10,000 statute miles of the B-52G.

### First Cessna U-3B Delivered To Air Force

SIGNING acceptance papers on the first of 35 new Cessna U-3B's delivered to the Air Force is Maj. Donald D. Adams, left, of the Aircraft Allocations Office at SAC Headquarters, Offutt AFB, Nebr. Pictured with him is Lt. Col. J. Riley Fowler, officer in charge of the Air Force plant office at Cessna in Wichita.

The U-3B is a five-place, twin-engine aircraft with a cruising speed of 220 mph and a maximum range of more than 1,400 miles. De-icing and anti-icing equipment provide the airplane with all-weather capabilities. Latest figures released by the USAF show that a total of 298,729 hours of operation have been logged in the 160 aircraft previously ordered from Cessna.

The average USAF monthly utilization rate on the earlier U-3A models is 61.9 hours per month. The USAF Ballistic Missile Division at Los Angeles has the highest utilization rate with 87.6 average hours of operation per month.

### Navy Man Named Philco Vice President

Walter S. Bopp has been appointed to the new post of Vice President and General Manager of Philco International Division of Philco Corporation, according to Harvey Williams, President.

Mr. Bopp joined Philco as Director of Marketing 1 December, 1956 with the acquisition by Philco of the Bendix-Crosley business from Avco Manufacturing Company. He had served as Sales Manager of Avco International since 1954.

Previously, after four years service in the Navy during WWII, he joined RCA in 1946 and was Manager of the radio, television and appliance department of RCA International from 1950 to 1954.

### Mammoth Tires To Alaska

The world's largest tires—each 10 feet high—have been sent to Alaska for use in the Army's "Exercise Willow Freeze." Built by the Goodyear Tire & Rubber Company, the tires, each weighing 3,200 pounds with rim will be used to equip cargo trailers developed and built by the Army Transportation Corps to replace slow moving, heavy sleds.

R. E. Haverman, Goodyear's Manager of Government Sales, said each tire contains enough rubber for 160 passenger car tires. Air volume is equal to 130 average passenger car tires.

### GPE's H. G. Place Retires As Chairman

Founder Chairman H. G. Place, who headed General Precision Equipment Corporation, N. Y., during the period of its major acquisition of electronic and other companies, has retired, but will continue to serve as a member of the Board of Directors and as a consultant.

His offices are in the New York headquarters of GPE, which will move 1 February to 220 East 42d Street. General Precision corporate headquarters will move around the same time to its new building at 50 Prospect Ave., Tarrytown, N. Y.

Mr. Place served as GPE President from 1949 to 1952, Chairman of the Board from 1952 to 1959 and since April, 1959 as Founder Chairman. During this period, sales grew from \$28 million to over \$215 million. The corporation now has six principal subsidiaries with plants in 20 cities and 16,000 employees.

In these years, the company developed an increasingly important leadership position in the areas of advanced electronics, inertial and doppler self-contained navigation and computers for military and business use and air traffic control.

During this period also, the company acquired what are now its Kefarott and Link Divisions and the subsidiaries, Grafex and Shand and Jurs. The company's GPL Division has pioneered advanced air traffic control systems and the Librascope Division similarly has been in front in developing computers and computer systems for missiles, space vehicles and anti-submarine warfare, including those relating to Polaris, Asroc and Subroc.

### Coast Guard Veteran Named

Louis J. Bruno, who served with the Coast Guard from 1951 to 1954, has been appointed Government Relations Representative for Philco Corporation's Lansdale, Pa., Division. Frank W. Mayock, Manager of the Government Relations Department, said Mr. Bruno will operate out of the division's midwest regional office at the Talbot Tower Building, First & Ludlow Streets, Dayton, Ohio.

### CAPT. KOSSLER NAMED BUWEPS I.G.

CAPT. Herman J. Kossler will relieve RAdm. Hazlett P. Weatherwax as Inspector General and Assistant Chief of the Bureau of Naval Weapons for Administration. During WW II, Captain Kossler led the submarine Cavalla on six successful war patrols in the Pacific, and was awarded the Navy Cross, one of 16 decorations he holds. He is now Commander of Amphibious Squadron 10 which recently returned to Norfolk from exercises in the Caribbean.

Captain Kossler's wife is the former Ursula Breher of Martin, N. D. They reside at 5509 Pebble Lane, Norfolk, and have six children.

### ONE YEAR AHEAD OF SCHEDULE:

### Ling-Temco Electronics Wins Salute For World's Most Powerful Radio Station

Ling-Temco Electronics, Inc., Dallas, has received congratulations from VAdm. W. F. Raborn, Navy Special Projects Chief, for a new break-through in super-power communications.

Construction of the world's most powerful radio station, designed to communicate with Polaris submarines even when they are under water, is usually completed in Cutler, Me., by Continental Electronics Manufacturing Company, an LTE subsidiary, under \$50 million contracts.

The station broadcast its first message—to a Polaris Staff Meeting in Washington.

Back came this reply:

"My congratulations to you on the completion of the construction of NAA (the station's call letters) one year ahead of schedule. You may take great pride in the knowledge that your outstanding contribution will add significantly to the overall success of the Polaris Weapons System."

It was signed by Admiral Raborn, who has become known popularly as "Mr. Polaris."

Attending the staff meeting with Admiral Raborn were RAdm. F. Virden, Director of Naval Communications; RAdm. D. J. Peltier, Chief of the Bureau of Yards and Docks, and RAdm. R. K. James, Chief of the Bureau of Ships, who also sent a message of congratulations to the Navy contract officers and the contractor, Continental Electronics.

Sent as a pre-operational test of the 2-million-watt radio station, the message to the admiral said:

"We would like to greet you with this initial test message transmitted from Cutler, Maine, which marks an important milestone in the contribution of Naval Communications to the Polaris Weapons System. Best wishes from staff and contractor."

Continental President J. O. Weldon, at the site directing tests, said that preliminary measurements indicate that the performance of both the transmitter and the antenna system (which covers approximately two square miles) may exceed the specifications for which they were designed. The station is designed to beam messages thousands of miles.

Construction of the station is directed for the Navy by Capt. Tom White, Bureau of Yards and Docks Officer in Charge of Construction for the First Naval District, and Capt. J. Burke, Resident Officer in Charge of Construction.

Continental Electronics initially received a fixed-price contract to design, manufacture and install the transmitter and to design the antenna system and the prime power plant. Later Continental Electronics became the prime contractor for the complete installation.

### Northrop Will Build Army Target Missiles

The Army has awarded a \$2.9 million contract to Northrop Corporation for production of 770 RPT6-3 target missiles, which are air-launched from jet fighters.

The Army will use the target missiles in training soldiers for Nike Ajax and Nike Hercules air defense missile batteries.

The target missile, powered by a solid propellant rocket engine, weighs 290 pounds and is nearly 10 feet long. It has a five foot wing span.

The letter contract went to the Radio-plane Division of Northrop, located at 8000 Woodley Ave., Van Nuys, Calif.

### Service Veterans Named Firm Senior Associates

Metcalf & Eddy, Architect-Engineer firm of Boston which recently was commended by the Army for work on BMEWS in Alaska and Greenland, has announced the appointment of five staff members as Senior Associates. Charles G. Hammann, Charles Y. Hitchcock, Jr., Albert B. Rich, Morton Solomon, and Ariel A. Thomas.

Mr. Hitchcock was a wartime lieutenant in the Navy's Seabees and served in both European and Pacific Theatres.

Senior Associate Solomon, from 1941 until his retirement as a Colonel in 1958, served in the Corps of Engineers. Mr. Thomas served as a Major in the Sanitary Corps of the Army during WW II.

### SERVED AT WHITE HOUSE:

### Col. Oulie Chosen Garrett Plans Chief

Col. Kendall Oulie, USAR, has been appointed Director of Planning for The Garrett Corporation, Los Angeles. He replaces John W. Calvert who recently became Manager of Marketing Services.

Permanent chairman of the steering committee for Business Outlook Conferences sponsored by the Los Angeles Chamber of Commerce, Colonel Oulie has also held office in a number of national and local marketing organizations, including chairmanship of the West Coast Council of Market Research Directors.

An infantry officer during WW II, he organized the Army loyalty investigation program for the eight western states. He later served as War Department White House liaison officer and Assistant Secretary for the late General of the Army George C. Marshall.

### Solar Aircraft Gets V.P.

W. D. Bryson has been elected a Vice President of Solar Aircraft Company, San Diego, a subsidiary of International Harvester Company.

Solar President Herbert Kunzel said Mr. Bryson will have responsibility for coordination of Solar's engineering and production activities. He has been Manager of Manufacturing Research at Harvester since April 1955.

## Industry '61 Sales Will Continue High AIA Head Forecasts; Urges R&D Support

Sales for the aerospace industry in 1961 "will continue to be high, at the \$11 billion level," according to a forecast by General Orval R. Cook, USAF-Ret., President of the Aerospace Industries Association.

General Cook pointed out that inasmuch as some 80% of the industry's sales are military products, an exact forecast of the 1961 level is not possible. Missile spending, he said, will continue a steady increase, with aircraft spending decreasing proportionately.

"In addition to increased missile and space vehicle sales," General Cook said, "a high level of sales will continue in the turbine powered commercial transport market, as well as in business aircraft and helicopter markets."

General Cook stressed the urgent requirement for the support by the Defense Department and other Government agencies of an unusually large research and development effort.

"This must be," he declared, "if the greater performance capabilities of new and advanced vehicles for air and space travel are to be realized at the earliest possible date. At the same time, however, due to the continually increasing costs of aerospace research, award of research and development contracts will be subject to increasing selectivity and

will be far more competitive."

The AIA President pointed out that manned aircraft are still "the backbone of the nation's forces in-being and constitute 63 per cent of current aerospace weapons expenditures."

General Cook said although sales on an industry-wide basis have remained constant, the low profit level of the aerospace companies is due to many factors, "principally contract stretch-outs, economic limitations, and proportionately more research and development contracts than production contracts."

14 Jan. 1961 (Vol. 98, P. 551)

Army Navy Air Force Journal 29

## Pershing Contracts Reach \$138 Million

THE Army has awarded a contract for \$76.9 million to the Martin Company, Orlando, Fla., for continued development of the Pershing ballistic missile system. Previous awards of \$61.5 million brought the total Pershing funds allotted Martin, the system prime contractor, for 1961 fiscal year work to \$138.4 million.

The contract covers continued production of missiles for R&D testing, in addition to ground support equipment, training, tooling, flight and environmental testing and engineering services.

The Pershing award is the second highest Army missile contract announcement this fiscal year. A \$199.1 million contract awarded to the Western Electric Company funding further development of the Army's Nike Zeus anti-missile missile system was announced in September.

## Roy Calvin Joins Martin Company

The Martin Company, Baltimore, has announced appointment of Roy Calvin as Director of Editorial Services, a new position.

Holmes M. Brown, Martin Company's Director of Communications, said Mr. Calvin's job, created as part of a modernization and streamlining of Martin's communications setup, will include direction of a corporate news bureau, a publications bureau, the technical information service, and a speech writing bureau.

Mr. Calvin recently resigned from the Washington news bureau of the McGraw-Hill Publishing Company.

An Oklahoman, Calvin has had 20 years of experience in the news field, in Oklahoma, Missouri, Texas and Washington, D. C. He was Texas news editor and Dallas bureau manager of the United Press four years before joining U.P.'s Washington staff in 1951.

Since 1954, Calvin has been on the McGraw-Hill Washington news staff, specializing in reporting Congressional and national political affairs. For the past year and a half, he has written the weekly column "Washington Outlook" for *Business Week* magazine.

## Texas Instruments Opens Special Products Unit

Texas Instruments Incorporated of Dallas has established a Special Products Department in the apparatus Division it will concentrate on aircraft engine electronics and industrial controls.

Headed by W. R. Bailey, former Manager of the Division's Surveillance Department, the new unit will offer services on an international basis.

Succeeding Mr. Bailey as Manager of the Surveillance Department is Dr. L. D. Strom, previously Manager of the Division's Research and Development Department.

## For the first string **TURBINE TALENT TEAM**

At Bell Helicopter, this "first-string" leadership has been earned by delivering consistently superior performance in the development of turbine-powered helicopters.

This is the Bell record: (1954) first in the world to fly a fixed turbine-powered helicopter test-bed.. the XH 13-F, equipped with an Artouste engine.. for the U. S. Air Force using an Army helicopter..

(1956) again first in development with flight of the T-53 powered XH-40, prototype of the presently operational Army HU-1 series, holder of seven world records and the first turbine helicopter designed for specific mission capability..

(1960) still the leader with the first turbine-powered 4-place helicopter test-bed, the U. S. Navy HUL-1-M.. and, the first operation of the new Allison T-63 engine in a helicopter..

This constant pioneering desire to test-out and deliver proven turbine-powered light helicopters is typical of Bell's *turbine talent team*.. experienced, practical minds which constantly anticipate new performance goals in Bell's dedicated policy of leadership in turbine helicopters.

## **Ellsworth AFB At Rapid City, S. D., Tabbed For Minuteman Support Mission**

The third support base for operational deployment of SAC's Minuteman ICBM will be Ellsworth AFB at Rapid City, S. D.

Like Malstrom AFB, Great Falls, Mont., selected last March as the first Minuteman base, Ellsworth will provide support for a wing.

Each wing consists of three squadrons.

In addition to these hardened and dispersed missile wings, Hill AFB, Utah, was selected in November to support

two mobile Minuteman squadrons.

Surveys have been initiated in the Portsmouth, N. H., area to select a location for the next underground units.

### **Missile Command To Campus**

Lt. Col. Henry R. Del Mar, Staff Transportation Officer of the Army Ordnance Missile Command, will depart Huntsville, Ala., to attend New York University. His replacement is Lt. Col. Theodore Antonelli.

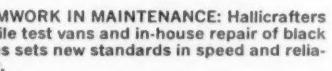

**TEAMWORK IN PLANNING:** Hallicrafters "BLUE STREAK" Teams support military programming groups for SAC aircraft at OCAMA and other material commands.

**TEAMWORK IN INSTALLATION:** Advanced ECM equipments are installed by "BLUE STREAK"-SAC teams with a minimum of down time. Maintenance and operational training is speeded up, too.

**TEAMWORK IN MODIFICATION:** Modernization of RF transmission systems completed in 30% less time through "BLUE STREAK" team assistance to base maintenance groups.

**TEAMWORK IN MAINTENANCE:** Hallicrafters mobile test vans and in-house repair of black boxes sets new standards in speed and reliability.

## **X-15 No. 2 Slated**

### **For Feb. Delivery**

The X-15 Number 2 airplane equipped with the XLR-99 57,000-lb. thrust rocket engine will be delivered by North American Aviation, Inc. to the government in February.

Certain modifications must be made by North American to prepare the X-15 for its expected performance of speeds near 4000 m.p.h. and altitudes above 50 miles in the joint Air Force-NASA-Navy research program during the next year.

Research flights have been conducted since 25 March 1960 with the X-15 Number 1 equipped with two XLR-11 engines, which produce a total of 16,000 pounds of thrust.

When the Number 2 airplane is delivered next month, the X-15 Number 1 which is being flown by project pilots in the intervening period, will be returned to North American for installation of an XLR-99 engine and other systems additions and modifications. This will require at least four months, which would put the airplane back into the research program about July.

The X-15 Number 3, equipped with an XLR-99 engine, is expected to be delivered to the government in September. This is the airplane which was damaged by explosion during a ground test on 8 June 1960.

Soon after the X-15 Number 2 is returned to flight status with the modifications incorporated, a series of research flights will begin to expand the flight envelope to design performance. The first of these flights will be made by Maj. Robert M. White, Air Force pilot assigned to the X-15 project. This flight is programmed for Mach 3.7, about 2500 m.p.h., and 80,000 feet altitude.

The X-15 research program is designed to obtain data on (1) hypersonic aerodynamics, (2) structural characteristics under high aerodynamic heating conditions, (3) effectiveness of reaction type controls in regions where conventional aerodynamic controls are ineffective, (4) psychological and physiological problems associated with weightless conditions for space flight, and (5) control problems during exit and entry.

Since the research program was initiated in March 1960, 18 flights have been completed in the Number 1 airplane. All six members of the research pilot team, including Major White and Capt. Robert A. Rushworth, USAF; Joe Walker, Jack McKay and Neil Armstrong, NASA; and LCdr. Forrest S. Petersen, USN, have been checked out in the airplane.

In expanding the design envelope of the Number 1 airplane with its interim engines, a maximum speed of 2196 m.p.h. and altitude of 136,500 feet were obtained by Walker and Major White respectively.

## **CCDD Division**

### **Creates New Office**

Formation of a new directorate, charged with insuring "an aggressive forward look" for command and control developments, is announced by Maj. Gen. Kenneth P. Bergquist, Commander of the Air Force Command and Control Development Division at Hanscom Field, Mass.

The new Directorate of Advanced Planning, headed by Col. Robert J. Lynch, will identify new and improved command and control systems, and provide general guidance for state-of-the-art goals.

Special emphasis will be placed on making maximum use of technological breakthroughs in the electronic area. Starting from the concept or idea stage, the new organization will be responsible for the planning and analysis necessary to final development of those command and control systems which will permit optimum utilization of future weapons.

Other operating directorates at AFCCDD are the Directorate of Systems Management, concerned with a dozen "L" systems which support the military command and control function, and the Directorate of Technology, which works in AFCCDD's applied research and operational support programs.
